making big topics easy to understand

the law touches everyone and even the average law abiding citizen is catered for in this unique book from lawmakers to lawbreakers the legal companion offers a view of the oddities quirks origins and stories behind the legal world starting quite literally at the beginning as we learn how the ten commandments were later revised by god on the second draft the book ranges from the serious how fingerprinting began to the bizarre why the skeleton of jeremy bentham votes at university college london meetings the informative why judges have a notch on top of their wigs to the completely ridiculous why priests marked the legal boundary of their parish by hanging children upside down and banging their heads against stone markers the legal companion takes the reader through a legal minefield of notes quotes facts and stats but the legal companion doesn't just contain fascinating snippets of information it also offers extracts from the finest writing about the law over the centuries and in modern times charles dickens shares a cell with j g ballard while herman melville and franz kafka stand in the dock with william burroughs and hunter s thompson and like all the other books in the companion series there's a magnificent piece of statistical trivia to match each page number the market for this book is huge there are an enormous number of legal professionals working in the uk over 60 000 solicitors and 10 000 barristers regulated by the law society in england and wales alone the study of law is increasingly popular with around 10 000 law graduates every year with law taught in 89 universities and 36 other institutions and while professionals and students will be interested in the mixture of fact and fun that the legal companion provides there is also plenty for the layperson to understand and enjoy the ratings for crime and legal dramas are among the highest on television and some of hollywood's greatest films are based in the courtroom

law touches every aspect of our daily lives and yet the main concepts terms and processes of the legal system remain obscure to many this very short introduction in its third edition provides a lucid accessible guide to modern legal systems considering a number of social and political events that have had an impact on the law

what makes an argument in a law case good or bad can legal decisions be justified by purely rational argument or are they ultimately determined by more subjective influences these questions are central to the study of jurisprudence and are thoroughly and critically examined in legal reasoning and legal theory now with a new and up to date foreword its clarity of explanation and argument make this classic legal text readily accessible to lawyers philosophers and any general reader interested in legal processes human reasoning or practical logic

this book is exceptional in the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction and it presents a unique way of looking at legal education it is crucial for lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions in this respect being a lawyer involves being able to reason like a lawyer even more than having detailed knowledge of particular sets of rules introduction to law reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions where positive law is discussed the emphasis is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by for instance the common law and civil law tradition the law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed

now in its third edition an introduction to law and legal reasoning continues to be the ideal go to for the first year law student it is a short practical book that introduces beginning law students and others to contemporary law and legal reasoning by presenting these topics through various discussions of cases and examples it provides students with a solid source to reference for years to come

publisher description this widely used book in many printings begins with answers to forty commonly asked questions of first year law students it specifies a six step approach to briefing a case with specific guidelines for accomplishing each step the process of briefing cases is then demonstrated with excellent and poor briefs of increasing complexity emphasis is placed initially on the techniques of briefing as an introduction to the learning of legal reasoning the first priority of the first year of law school in addition the book also demonstrates the relevance of more advanced modes of legal reasoning including positivist pragmatic policy oriented natural law and other perspectives applied in decoding and understanding cases in its introduction of jurisprudential perspectives learning legal reasoning transcends the typical technical positivist orientation of most first year materials

trusted by students year after year elliott and quinn s undergraduate textbook english legal system is your definitive guide to this ever changing area of law updated annually to ensure currency and written in the authors trademark clear precise and engaging style this book has been developed with you the student firmly in mind providing all you need to gain a broad and thorough understanding of this fast paced subject

this book provides a selective and somewhat cheeky account of prominent positions in legal theory such as american legal realism modern legal positivism sociological systems theory institutionalism and critical legal studies it presents a relational approach to law and a new perspective on legal sources the book explores topics of legal theory in a playful manner it is written and composed in a way that refutes the widespread prejudice that legal theory is a dreary subject with a cast of characters that occasionally interact in order to illustrate the claims of the book legal experts claim to know what the law is legal theory or jurisprudence explores whether such claims are warranted the discipline first emerged at the turn of the 20th century when the self confidence of both legal scholarship and judicial craftsmanship became severely shattered but the crisis continues to this day

presents a clear and detailed explanation of the english legal system with special features to aid students comprehension and understanding providing an excellent grounding in the subject and solid basis for the onward study of law

reprint of the original first published in 1883 the antigenos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

in this little work is presented a collection of legal questions connected with the events of everyday life which were collected and used as an aid in teaching in daily life many legal relations and transactions arise which owing to the insignificance of the object involved rarely lead to an action and so escape notice but which are none the less valuable to beginners for educational purposes an examination of the book will surprise even the practicing lawyer as showing to what

intricate problems the simplest facts of everyday life may give rise it should therefore prove to be full of interest to the practicing lawyer and layman and of very great practical value to student teacher and law examiner

this book is a very accessible introduction to the major ideas of modern legal thinking and a useful survey of current thinking in the field daniel farber sho sato professor of law university of california berkeley there are two kinds of knowledge law school teaches legal rules on the one hand and tools for thinking about legal problems on the other although the tools are far more interesting and useful than the rules they tend to be neglected in favor of other aspects of the curriculum in the legal analyst ward farnsworth brings together in one place all of the most powerful of those tools for thinking about law from classic ideas in game theory such as the prisoner s dilemma and the stag hunt to psychological principles such as hindsight bias and framing effects from ideas in jurisprudence such as the slippery slope to more than two dozen other such principles farnsworth s guide leads readers through the fascinating world of legal thought each chapter introduces a single tool and shows how it can be used to solve different types of problems the explanations are written in clear lively language and illustrated with a wide range of examples the legal analyst is an indispensable user s manual for law students experienced practitioners seeking a one stop guide to legal principles or anyone else with an interest in the law one of those rare books that will actually raise the level of analysis at every law school in the country a must read not only for students just beginning law school but indeed for anyone who could use a reminder of how diverse and powerful the legal toolkit really is douglas lichtman professor of law university of chicago law school

Eventually, **The Little Book On Legal Writing** will unconditionally discover a additional experience and success by spending more cash. nevertheless when? attain you take on that you require to acquire those all needs later having significantly cash?
