the ninth edition of the moral of the story represents 25 years of editions with the publication year of the first being 1994 like the previous editions of the moral of the story the ninth edition is a combination of classical questions in ethical theory and contemporary issues the general concept remains the same that discussions about moral issues can be facilitated using stories as examples as a form of ethics lab where solutions can be tried out under controlled conditions the book is written primarily for such college courses as introduction to ethics moral philosophy and introduction to philosophy values

the problem this project attempts to solve is to develop a workable moral education in light of the clash between religious forms of moral education and u s supreme court decisions concerning them the concept of story and storytelling has been suggested as a unifying focus for disparate prescriptions for moral education several recent approaches to moral storytelling have been proposed the approaches of william bennett nel noddings and herbert kohl are among those which have attempted to combine moral education and storytelling within the last decade bennett is identified with other theorists whose primary concern is the moral content of a story noddings is identified as a process theorist whose primary concern is the process of moral storytelling not the content kohl is identified as a reflection theorist whose approach challenges tradition in the hope of creating a more moral society each one of these three approaches attempts to provide a comprehensive program of moral education but they fall short of that goal the purpose of this project then is to construct a storytelling moral education program that improves upon earlier approaches using the three levels of moral thinking posited by r m hare a three level approach to moral storytelling is proposed the intuitive critical and meta ethical levels of moral thinking that hare refers to are used to frame a new three level approach to moral storytelling the three level approach combines content process and reflection into a unified prescription for moral education thus a more comprehensive plan for moral education through storytelling is developed one that respects traditional forms of moral education while remaining within the parameters set by the u s supreme court

this volume is a revised enlarged and broadened version of gert s classic 1970 book the moral rules advocating an approach he terms morality as impartial rationality gert here presents a full discussion of his moral theory adding a wealth of new illuminating detail to his analysis of the concepts rationality irrationality good evil and impartiality by which he defines morality he constructs a moral system that

includes rules prohibiting the kinds of actions that cause evil procedures for determining when violation of the rules is permitted and ideals which encourage actions that prevent or relieve suffering to be valid gert argues any such system must be a public system that applies to all rational persons the book concludes with a discussion of medical ethics demonstrating the link between moral theory and its application to real moral problems

the routledge handbook of the ethics of human enhancement provides readers with a philosophically rich and scientifically grounded analysis of human enhancement and its ethical implications a landmark in the academic literature the volume covers human enhancement in genetic engineering neuroscience synthetic biology regenerative medicine bioengineering and many other fields the handbook includes a diverse and multifaceted collection of 30 chapters all appearing here in print for the first time that reveal the fundamental ethical challenges related to human enhancement the chapters have been written by internationally recognized leaders in the field and are organized into seven parts historical background and key concepts human enhancement and human nature physical enhancement cognitive enhancement mood enhancement and moral enhancement human enhancement and medicine legal social and political implications the depth and topical range of the handbook makes it an essential resource for upper level undergraduates graduate students and postdoctoral fellows in a broad variety of disciplinary areas furthermore it is an authoritative reference for basic scientists philosophers engineers physicians lawyers and other professionals who work on the topic of human enhancement

the moral of the story 9e continues to bring understanding to difficult concepts in moral philosophy through storytelling and story analysis to help students apply theories practically each chapter concludes with a section of primary readings with excerpts from classical and contemporary texts along with a section of narratives a collection of stories that illustrate the moral issues raised in the chapter study questions are also included throughout the edition new popular television shows and movies e g the handmaid s tale the good place green book are related to chapter themes throughout this new edition the text continues to illustrate moral issues through stories including many that come from popular culture or current events

in elements of morals paul janet presents a profound exploration of ethical principles that underpin human actions and societal norms with a distinctive analytical style janet delves into various moral philosophies juxtaposing classical theories with contemporary perspectives his methodical examination

encompasses themes of individual morality social justice and the philosophical foundations of ethical decision making revealing the complexities inherent in moral reasoning the book occupies a significant place in the moral philosophy discourse of the late 19th century offering critical insights that continue to resonate with modern ethical dilemmas paul janet a prominent french philosopher was deeply influenced by the intellectual currents of his time particularly auguste comte s positivism his academic background intertwined with an appreciation for scientific rigor informed his approach to moral philosophy janet sought to bridge the gap between empirical understanding and moral reasoning positioning elements of morals as a vital contribution to the evolution of ethics his engagement with social issues and advocacy for rational thought highlighted his commitment to applying philosophical concepts to everyday life this book is essential for anyone interested in the foundations of moral philosophy as it not only articulates key ethical doctrines but also challenges readers to contemplate their moral frameworks janet s rigorous inquiry invites scholars students and inquisitive minds alike to engage critically with the principles guiding human conduct making it a valuable addition to the library of anyone eager to understand the intricacies of morality

for more than thirty years philosopher bernard gert has been developing and refining his distinctive and comprehensive moral theory this book presents the fullest statement yet of his influential theoretical model
