from before the dawn of recorded history there has been a rich flow of interaction between japan and china japan has long learned many things from chinese civilization and since the modern era china began to learn from japan in the twenty first century however china surpassed japan in terms of gdp in 2010 to become the world s second largest economy amid this rapid rise of china and what has been called a power shift in japan china relations there are signs that bilateral tensions are rising and that the image each country has of the other is worsening this volume provides a cogent analysis of the politics of the bilateral relationship in the modern era explaining the past present and future of japan china relations during a time of massive political social and economic changes written by a team of internationally renowned japanese scholars and based on sources not available in english this book is essential reading for students and scholars of japan china relations japanese international relations and the politics and international relations of east asia

japan and china have a thousand year history of fighting each other the relationship between the two largest economies in asia has been distinct by tension during the 20th century due to territorial and political disputes as well as taiwanese sovereignty the invasion of china by japan in the second world war and japans subsequent refusal to acknowledge the extent of its war crimes territorial disputes surrounding the diaoyu senkaku islands and related fishing rights and energy resources and japanese american security co operation sino japanese relations are of interest to the entire east asian region due to the fact that japan and china are the most influential politically militarily economically and psychologically regionally as well as in a greater global perspective since they are among the top five economies in the world in an economic perspective

this work is a comprehensive analysis of the political and strategic relationship between japan and china each of which in important respects aspires to a global status commensurate with its economic and military might these two great powers have to come to terms with a history of antagonism each viewing the other as circumspectly as their small regional neighbors view them japan and greater china reviews the domestic and international foundations of the foreign policies of the two countries notably the politics of national identity the strategic and economic underpinnings of the relationship are assessed not exclusively by reference to bilateral concerns but within the global and regional position and interests of the two powers

the first war between china and japan in 1894 95 was one of the most fateful events not only in modern japanese and chinese history but in international history as well the war and subsequent events catapulted japan on its trajectory toward temporary hegemony in east asia whereas china entered a long period of domestic unrest and foreign intervention repercussions of these developments can be still felt especially in the mutual perceptions of chinese and japanese people today however despite considerable scholarship on sino japanese relations the perplexing question remains how the japanese attitude exactly changed after the triumphant victory in 1895 over its former role model and competitor this book examines the transformation of japan s attitude toward china up to the time of the russo japanese war 1904 5 when the psychological framework within which future chinese japanese relations worked reached its erstwhile completion it shows the transformation process through a close reading of

sources a large number of which is introduced to the scholarly discussion for the first time zachmann demonstrates how modern sino japanese attitudes were shaped by a multitude of factors domestic and international and in turn informed japan s course in international politics winner of the jade prize 2010 awarded by the german foundation for the promotion of japanese german culture and science relations
