this is the biography of the german man who created the v 2 rocket and came to the united states to develop missiles

the articles in this volume focus upon boethius's extant works his *de arithmetica* and a fragmentary *de musica* his translations and commentaries on logic his five theological texts and of course his *consolation of philosophy* they examine the effects that boethian thought has exercised upon the learning of later generations of scholars

where did humanity get the idea that outer space is a frontier waiting to be explored destined for the stars unravels the popularization of the science of space exploration in america between 1944 and 1955 arguing that the success of the us space program was due not to technological or economic superiority but was sustained by a culture that had long believed it was called by god to settle new frontiers and prepare for the inevitable end of time and god's final judgment religious forces newell finds were in no small way responsible for the crescendo of support for and interest in space exploration in the early 1950s well before project mercury the united states first human spaceflight program began in 1959 in this remarkable history newell explores the connection between the art of chesley bonestell the father of modern space art whose paintings drew inspiration from depictions of the american west and the popularity of that art in cold war america bonestell's working partnership with science writer and rocket expert willy ley and ley and bonestell's relationship with wernher von braun father of both the v 2 missile and the saturn v rocket whose millennial conviction that god wanted humankind to leave earth and explore other planets animated his life's work together they inspired a technological and scientific faith that awoke a deep seated belief in a sense of divine destiny to reach the heavens the origins of their quest newell concludes had less to do with the cold war strife commonly associated with the space race and everything to do with the religious culture that contributed to the invention of space as the final frontier

written by a former aerodynamics officer on the space shuttle program this book provides a complete overview of the new u s space program which has changed considerably over the past 50 years the future of space exploration has become increasingly dependent on other countries and private enterprise can private enterprise fill nasa's shoes and provide the same expertise safety measures and lessons learned in order to tell this story it is important to understand the politics of space as well as the dangers why it is so difficult to explore and utilize the resources of space some past and recent triumphs and failures will be discussed pointing the way to a successful space policy that includes taking risks but also learning how to mitigate them

in blue sky dream a memoir of america's fall from grace award winner david beers offers a powerful personal vision of the rise and fall of the american middle class here is a

dazzling literary chronicle of a family a people and a nation the blue sky tribe of ever optimistic middle class americans who believed in something called the american dream then woke up one day to discover it was gone blue sky dream is a book incredibly rich in ideas in ways of seeing the recent past with stunning clarity david beers explores issues that define our times downsizing middle class anxiety the profound anger with government the sense that something has gone awry with the united states with such skill personal immediacy and compassion that readers will see their own histories in his prose blue sky dream can rightly be called a communal memoir because in telling his family s tale growing tensions and disillusionment in their suburban paradise a son rejecting his parents values one sudden and inexplicable moment of violence beers tells the story of his people the blue sky tribe who imagined ourselves to be living the inevitable future and are very surprised today to discover we were but a strange and aberrant moment that is now receding into history
