i have stressed in this book from a spiritual and practical standpoint how one should utilize the mind in ways for which god created it much of the content can be clarified or substantiated with biblical quotes therefore girth the loins of your mind be prayerful with hope as you reach for the creator to benefit your mind allow him to be your mind regulator he understand the mechanisms of each of his creation he is the perfect physician and teacher of the mind it is said that the mind is satans playground yes it is if we allow him to enter and lodge there we need to build a wall of faith equipped with a closed door around the mind to prevent his entry in doing so we can more readily keep our minds eye attentive its ears opened and have an alertness that protects us from evil strongholds even those of our own flesh listen to your spirit heart and conscience allow your mind to be still and listen to the positive voices that alert you to the things of god being fortified with strength on high this will help you to avoid confusion being overwhelmed being lost and will bring focus strong willpower is needed and will help pull you up towards god and not down to where abnormalities plague the mind i impart to you this advice from a place of experience from a

when it comes to contemporary philosophical problems metaphysical idealism or berkeleyan immaterialism is not taken seriously by most philosophers not to mention the typical christian layperson this state of affairs deserves some attempt at rectification since idealism has considerable explanatory power as a metaphysical thesis and provides numerous practical and theoretical benefits such thinkers as george berkeley and jonathan edwards believed that idealism is especially amenable to a christian perspective both because it provides a plausible way of conceptualizing the world from a theistic standpoint and because it effectively addresses skeptical challenges to the christian faith the contributors to this volume explore a variety of ways in which the case can be made for this claim including potential solutions to philosophical problems related to the nature of time the ontology of physical objects the mind body problem and the nature of science
