at the end of the nineteenth century Britain was a country without an opera culture and in the concert halls the Austro-Germanic symphonic repertoire reigned supreme. In the following fifty years the art music culture changed dramatically: radio, the gramophone and the recording industry, government arts subsidies, Covent Garden and a post-war resurgence in national and civic pride which contributed to the spread of music festivals were the agents of change. Born in 1913, Benjamin Britten was well placed to take advantage of these market forces which he did consistently and skilfully from the 1930s onwards. His relationships with Boosey and Hawkes, Decca, Covent Garden, the Aldeburgh Festival, the English Opera Group and the Arts Council had a huge influence on the music he wrote. This book explores the effect of these commercial and national institutions on the music of one of the foremost British composers of the twentieth century.

Though culture can affect different countries, preferences for musical style, musicking is a worldwide trend that produces enjoyment for all. However, there is a divide between professional music performance and music education. In order to better engage students, a musicking approach must be implemented into educational curricula and used to promote a platform for inclusivity and community enrichment. Transforming Music Education in P-12 Schools and the Community is a critical scholarly publication that traces the theoretical foundation of current beliefs and practices surrounding music performance and education and discusses how to transform teaching and learning by implementing musicking. The book covers musical engagement for young children and families, universal design in music education in special and inclusive education settings, critical approaches of music teaching and learning in P-12 schools and reaching communities. It is essential for music teachers, conductors, music directors, instructional designers, academicians, educational professionals, administrators, researchers and students.

Virgil Thomson had already established himself as one of the nation's leading composers when he published *The State of Music* in 1939, the book that made his name as a writer and won him a fourteen-year stint as chief music reviewer at the *New York Herald Tribune*. This feisty, often hilarious polemic presented here in the extensively revised edition of 1962 surveys the challenges confronting the American composer in a hide-bound world where performance and broadcast outlets are controlled by institutions shocked by the new and suspicious of homegrown talent. For Aaron Copland, *The State of Music* was not just the most original book on music that America has produced but the wittiest, the most provocative, the best written.

For Broadway audiences of the 1980s, the decade was perhaps most notable for the so-called British Invasion. While concept musicals such as *Nine* and Stephen Sondheim's *Sunday in the Park with George* continued to be produced, several London hits came to New York. In addition to shows like *Chess*, *Me and My Girl*, and *Les Misérables*, the decade's most successful composer, Andrew Lloyd Webber, was also well represented by *Cats*, *The Phantom of the Opera*, *Song + Dance*, and *Starlight Express*. There were also many revivals, such as *Show Boat* and *Gypsy*. Surprise hits, the pirates of *Pennance*, huge hits *42nd Street*, and notorious flops *Into the Light*, *Carrie*, and *Annie 2*. Miss Hannigan's revenge. In the complete book of 1980s Broadway musicals, Dan Dietz examines in detail every musical that opened on Broadway during
