the first ever major international history of the world's most forbidding continent from the 18th century voyages of discovery to the fierce commercial and geopolitical rivalries of today

current geographical publications cgp is a non profit service to the scholarly community initiated in 1938 by the american geographical society of new york beginning in 2006 the format changed to include the tables of contents of current geographical journals the journal titles listed link to web pages or pdf scans of the current issue's contents

douglas little explores the stormy american relationship with the middle east from world war ii through the war in iraq focusing particularly on the complex and often inconsistent attitudes and interests that helped put the united states on a collision course with radical islam early in the new millennium after documenting the persistence of orientalist stereotypes in american popular culture little examines oil israel and other aspects of u.s. policy he concludes that a peculiar blend of arrogance and ignorance has led american officials to overestimate their ability to shape events in the middle east from 1945 through the present day and that it has been a driving force behind the iraq war for this updated third edition little covers events through 2007 including a new chapter on the bush doctrine demonstrating that in many important ways george w bush's middle eastern policies mark a sharp break with the past

explore the world as it was understood in 1888 with the inaugural issue of national geographic magazine vol 1 no 1 october 1888 this meticulously reproduced edition offers a fascinating glimpse into the early days of geographical exploration and scientific discovery a treasure trove for travel enthusiasts and history buffs this first issue provides unique insights into the world through the lens of late 19th century geography delve into articles and reports that shaped early perceptions of the earth accompanied by period maps and illustrations this historical periodical captures the spirit of adventure and the burgeoning field of geographical science journey back in time to experience the world's wonders through the eyes of the explorers scientists and writers who first brought them to the public's attention in this landmark publication this first edition is essential for anyone interested in the history of travel exploration and the development of geographical knowledge this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states
