such a fun story loved the characters this book has so much depth and so many layers it could be a college course i read it over and over again loved the surprise ending have you ever wondered if there might be a team upstairs helping you navigate your love life when nelle meets robert she also gets to know an earnest and entertaining group of guides traffic angels and wish fairies in this most unusual and entertaining semi autobiographical book a love story to the universe explores fate destiny and free will asking the question are some relationships orchestrated upstairs when two nomadic souls cross paths in tunisia their instant heart recognition sets off a chain reaction that ripples through dimensions from ancient past lives in ancient greece to a present day romance that literally stops hearts their connection becomes the team s most challenging assignment but as their story unfolds across four extraordinary parts something bigger emerges a glimpse into the hidden world of spiritual assistance that surrounds us all perfect for fans of time travel romance with a touch of magical realism who loved the good place and were moved by the movie past lives and anyone who s ever felt like the universe might be trying to tell them something based on a true story with a generous splash of metaphysical magic this complete collection takes you from heartbreak to hope from earthly romance to cosmic wonder because the greatest love affairs aren t just between two people they re between humanity and the delightfully imperfect team of helpers who refuse to give up on us warning may cause sudden awareness of synchronicities inexplicable urge to thank your invisible helpers and the unshakeable feeling that you re never truly alone special bonus chapter one of we meet again an epic reincarnation mystery about a famous couple reunited today to change the world plus sneak peeks into the hero s playbook and the cosmic wish playbook brownell landrum is an author inventor songwriter and explorer of metaphysical mysteries in addition to being the host and executive producer of the life is a trip reincarnation stories podcast and the author of a love story to the universe the we meet again trilogy she is the author of over a dozen books and screenplays ranging from nonfiction five reasons why bad things happen the hero s playbook and the science of wishing to fiction including the duet stories novel series children s books and more brownell s stories can be summarized as follows lose yourself in the fiction find yourself in the truth

this work demonstrates that not everything that disney touched turned to gold in its first 100 years the company had major successes that transformed filmmaking and culture but it also had its share of unfinished projects unmet expectations and box office misses some works failed but nevertheless led to other more stunning and lucrative ones others shed light on periods when the disney company was struggling to establish or re establish its brand in addition many disney properties popular in their time but lost to modern audiences emerge as forgotten gems by exploring the studio s missteps this book provides a more complex portrayal of the history of the company than one would gain from a simple recounting of its many hits with essays by writers from across the globe it also asserts that what endures or is forgotten varies

from person to person place to place or generation to generation what one dismisses someone else recalls with deep fondness as a magical disney memory

wee willie sherdel was a very humble courageous left handed pitcher who became one of the all time great southpaws in st louis cardinals history the son of a german blacksmith in a small pennsylvania village willie s dream was to become a major league pitcher a rather big dream for a small boy not the most talented or biggest he worked hard and learned from greats like eddie plank branch rickey and grover cleveland alexander sherdel s best years were in the 1920s while rickey was developing the farm system concept and the cards were playing in two world series known for his slow ball willie was given the honor of pitching the first game against babe ruth lou gehrig and the powerful yankees in both series although labeled a hard luck pitcher in the series sherdel performed many great feats on the diamond since his retirement in 1932 he remains the redbirds winningest left hander and fourth all time winner willie also has pitched the third most games and the fourth most innings like all pitchers he loved to talk about his hitting among cardinals pitchers sherdel owns the fourth most career home runs and the fifth best batting average for his 337 in 1923 his contemporaries included over 90 hall of famers and some of the greatest players of all time including ruth gehrig ty cobb and rogers hornsby

a riveting road map to the development of modern scientific thought in the tradition of her perennial bestseller the well educated mind susan wise bauer delivers an accessible entertaining and illuminating springboard into the scientific education you never had far too often public discussion of science is carried out by journalists voters and politicians who have received their science secondhand the story of western science shows us the joy and importance of reading groundbreaking science writing for ourselves and guides us back to the masterpieces that have changed the way we think about our world our cosmos and ourselves able to be referenced individually or read together as the narrative of western scientific development the book s twenty eight succinct chapters lead readers from the first science texts by hippocrates plato and aristotle through twentieth century classics in biology physics and cosmology the story of western science illuminates everything from mankind s earliest inquiries to the butterfly effect from the birth of the scientific method to the rise of earth science and the flowering of modern biology each chapter recommends one or more classic books and provides entertaining accounts of crucial contributions to science vivid sketches of the scientist writers and clear explanations of the mechanics underlying each concept the story of western science reveals science to be a dramatic undertaking practiced by some of history s most memorable characters it reminds us that scientific inquiry is a human pursuit an essential often deeply personal sometimes flawed frequently brilliant way of understanding the world the story of western science is an entertaining and unique synthesis times higher education a fluidly written narrative that celebrates the inexorable force of human curiosity wall street journal and a bright informative resource for readers seeking to understand

science through the eyes of the men and women who shaped its history kirkus previously published as the story of science

helping a community of faith re vision its personal and collective narratives is one of the greatest leadership challenges of the age in finding our story larry golemon lead researcher of the alban institute s narrative leadership in ministry project has assembled essays by congregational consultants who use the power of story to help congregations heal strengthen and reinvent themselves these consultants describe how narrative therapy works explore its promise and its challenges and share the practical wisdom of their own experiences along with their favorite models of narrative change to show how congregations can be transformed by reauthoring the operative stories they live by
