dr michael j shea s series on biodynamic craniosacral therapy is based on healthcare providers physically sensing love and accessing a deep sense of warmth and stillness in the heart he begins this third volume by emphasizing the therapeutic application of touch therapy skills as in the previous two books he teaches these skills by explaining the importance of practitioners being able to perceive primary respiration a slow rhythmic tidal movement in the fluids of the body he goes on to discuss the distinctive influence of human embryology on any therapeutic modality a number of other experts in the field contribute chapters that illuminate the spiritual and psychological dimensions of human embryonic development especially the heart dr shea offers valuable new skills for anyone from midwives to pediatricians working therapeutically with infants in addition he summarizes current thinking on infant brain development discusses the long term consequences of attachment issues between the mother and infant and explores the importance of understanding the similarities of the mother infant and the therapistpatient relationships

curriculum and the life erratic the geographic cure lays bare the untold damage done to children who are forced to endure the toxic combination of fermented parenting as author leslie nissen has termed it and frequent family moves at the hands of alcoholic parents who perpetually seek the elusive geographic cure while such parents deceive themselves that in the next new place sobriety will prevail their children know better alcoholics who chronically uproot their families for a fresh start usually carry along every reason to drink for the school age children of such cure seeking alcoholics the torment of life with a volatile unpredictable and chronically intoxicated parent is intensified by the anguish of being the new kid who changes schools at the whim of the parent highly mobile children bearing an alarmingly long list of prior schools may be part of a group which nissen calls geographic cure children whose chances of finding help are nearly non existent despite their acute need for care the dilemma of this unique subset of children of alcoholics is examined via autobiographical psychoanalytic and fictional lenses nissen also recounts her own urge to hit the road when diagnosed with cancer and

explores the geographic cure writ large observing how the current testing frenzy and clamor for cures for low test scores dominate educational policy could teachers panic about accountability cause them to resent new students who appear at their classroom doors mid year is education encumbered because at the hands of policy makers educators are working the life erratic
