at the end of the twentieth century more people are living into their seventies eighties nineties and beyond a process expected to continue well into the next millennium the twentieth century has achieved what people in other centuries only dreamed of many can now expect to survive to old age in reasonably good health and can remain active and independent to the end in contrast to the high death rate ill health and destitution which affected all ages in the past yet this change is generally greeted not with triumph but with alarm it is assumed that the longer people live the longer they are ill and dependent thus burdening a shrinking younger generation with the cost of pensions and health care it is also widely believed that the past saw few survivors into

old age and these could be supported by their families without involving the taxpayer in this first survey of old age throughout english history these assumptions are challenged vivid pictures are given of the ways in which very large numbers of older people lived often vigorous and independent lives over many centuries the book argues that old people have always been highly visible in english communities and concludes that as people live longer due to the benefits of the rise in living standards far from being burdens they can be valuable contributors to their family and friends

old age is a time of losses permanent cumulative and irreversible these losses include our loss of work in retirement the eclipse of our past our biological decline dependency resulting from such decline the foreshortening of our future the abandonment of belief in our own improvement and our society s progress and of course our death this book views these losses as part of an elegy of old age elegy is a poetic or prose mourning of loss sadness and other emotions result with elegiac understanding we detach ourselves from these losses to seek and find consolation this book is concerned with achieving intellectual detachment through meditative reflection with the help of reading and appreciating the classics the final stage of the old age elegy consolation can be found at least in part within the classics the garlands of repose the classics are broadly defined by matthew arnold as the best that has been thought and said or found in the fine arts to benefit from the classis requires a life long liberal education this education begins with an introduction to the classics in youth makes use of them during our adult lives and supplies their conclusion for old age meditation such significant works enable us to place the losses we suffer within an intellectual framework of perennial ideas it is by means of such an intellectual framework that we secure consolation in old age classic works familiarize us deeply with the losses and emotions we endure suggest substitutes for the goods of the life we have lost in old age offer opportunities of catharsis for the sadness we experience and help us transform ourselves in old age classics help us see old age and its losses as part of a complete life which hold a unique value of its own while remaining part of larger nature processes history and intellectual traditions

describes the methodology used to estimate the short range financial operations of the old age survivors and disability insurance programme and provides projections to 2010

haber and gratton lay to rest many conventional assumptions concerning the place of older persons in american history choice haber and gratton s meaty little book does more than provide an intelligent synthesis of existing old age history its new interpretations insights and shifts of emphasis will provoke responses and help move historians work away from the now threadbare original disputes in e field toward new questions and approaches american historical review indeed haber and gratton give us

a refreshingly multidimensional history of the shift in old age security from work assets or children to government annuities contemporary sociology the history of old age has finally come of age the authors successfully synthesize the best of the earlier social and cultural studies with new empirical evidence and recent findings of economic historians journal of economic history a truly revisionary interpretation of the cultural and structural forces that shaped the elderly s lives from the colonial period to the present lucid and controversial it is bound to be widely cited and hotly contested w andrew achenbaum this social history of the american elderly offers a provocative new view of aging in the united states it revises traditional assumptions about the economic status of the old and challenges the long held contention that industrialization destroyed family relationships

problems presented by the elderly mentally ill

this multi disciplinary and multi occupational work contains newly commissioned material and previously unpublished articles on mental health disorders that afflict the aged written to promote an awareness of the nature of mental health disorders found in older people it also discusses the pros and cons of current community health policies

designed as a resource for artists writers and behavioral scientists this compilation of the myths and symbols of old age lists more than 400 entries ranging from abraham and acacia through zorya and zurvan coverage includes traditional mythical figures literary characters the symbolic attributes of old age such as time measurement and musical instruments animals associated with aging objects types of locations and more the result of four years research in a variety of sources the volume reports on the use of such symbols in art literature and popular culture providing the most comprehensive coverage of myths and symbols of old age available in one volume entries are arranged alphabetically and include short citations indicating the sources used to compile the entry a complete bibliography listing the full titles of all sources is also included to help readers who wish further information on a particular subject cross references are used throughout to highlight related entries

the latest in our successful series of titles in old age psychiatry this new volume will have great appeal as it brings readers right up to date on clinical aspects of psychiatric disease in the elderly with a particular emphasis on new developments in the dementias the book is divided into three sections the first two of which are devoted to dementia section i laboratory of clinic which tackles the molecular biology of alzheimer s disease risk factors for dementia clinical genetics prion diseases lewy body and vascular dementia and section ii treatments and ethical considerations which includes chapters on drug treatments for the cognitive symptoms of dementia residential care

forensic psychiatry and the arguments for and against assisted death in dementia the seven chapters of section hi deal with the management of functional disorders and include chapters on antidepressants treatment resistant depression ect therapy rational treatment of anxiety and panic in the elderly novel antipsychotics and schizophrenia and family therapy

the man who claimed he grew young at 70 an old man at 50 he determined to thwart the ravages of ill health and advancing years and after much study and experiment perfected a regime which he claims made a new man of him some of the contents the f

history of old age is the first major study of the ways in which old age has been perceived in western culture throughout history georges minois paints a vast fresco starting with the first old man to relate his own story an egyptian scribe some 4500 years ago and ending with the deaths of elizabeth i and henry iv in the sixteenth century tracing the changing conceptions of the nature value and burden of the old minois argues that western history during this period is marked by great fluctuation in the social and political role of the aged minois shows how in ancient greece the cult of youth and beauty on the one hand and the reverence for the figure of the homeric sage on the other created an ambivalent attitude toward the aged this ambiguity appears again in the contrast between the active role that older citizens played in roman politics and their depiction in satirical literature of the period christian literature in the middle ages also played a large part in defining society s perception of the old both in the image of the revered holy sage and in the total condemnation of the aged sinner drawing on literary texts throughout minois considers the interrelation of literary religious medical and political factors in determining the social fate of the elderly and their relationship to society this book will be of great interest to social and cultural historians as well as to general readers interested in the subject of the aged in society today

the acclaimed author of how we age whose descriptive powers are a gift to readers sherwin nuland presents a hopeful and practical model of aging a guide to understanding how we can all make the journey better as one of america s leading geriatric psychiatrists dr marc agronin sees both the sickest and the healthiest of seniors he observes what works to make their lives better and more purposeful and what doesn t many authors can talk about aging from their particular vantage points but dr agronin is on the front lines as he counsels and treats elderly individuals and their loved ones on a daily basis the latest scientific research and dr agronin s first hand experience are brilliantly distilled in the end of old age a call to no longer see aging as an implacable enemy and to start seeing it as a developmental force for enhancing well being meaning and longevity throughout the end of old age the focus is

squarely on so what does this mean for me and my family in the final part of the book dr agronin provides simple but revealing charts that you can fill out to identify develop and optimize your unique age given strengths it s nothing short of an action plan to help you age better by improving how you value the aging process guide yourself through stress and find ways to creatively address change for the best possible experience and outcome
