folklore as an historical science by george laurence gomme is a scientific publication written in the early 20th century the work examines the intricate relationship between history and folklore arguing that folklore can provide significant historical insight into the psychological social and cultural evolution of humanity through various examples and analyses the author plans to reveal how

folklore serves as a valuable resource for understanding historical events and societal structures the opening of the text lays the groundwork for the exploration of folklore as a legitimate historical source addressing the prevailing skepticism surrounding its value among historians gomme highlights the gaps within traditional historical narratives and emphasizes that folklore can fill these voids by preserving details about everyday life community customs and significant events that formal history often overlooks he suggests that by integrating folklore into historical studies researchers can gain a more comprehensive understanding of past societies illustrating this with the rich tradition surrounding the pedlar of swaffham as a case study this serves as a prime example of how local legends encapsulate broader historical truths bridging the divide between folklore and recorded history this is an automatically generated summary
