theology in the modern era often assumes that the consummate form of theological discourse is objective prose ignoring or condemning apophatic traditions and the spiritual eros that drives them for too long kierkegaard has been read along these lines as a progenitor of twentieth century neo orthodoxy and a stern critic of the erotic in all its forms in contrast hughes argues that kierkegaard envisions faith fundamentally as a form of infinite insatiable eros he depicts the essential purpose of kierkegaard s writing as to elicit ever greater spiritual desire not to provide the satisfactions of doctrine or knowledge hughes s argument revolves around close readings of provocative disparate and in many cases little known kierkegaardian texts the thread connecting all of these texts is that they each conjure up some sort of performative stage setting which they invite readers to enter by analyzing the theological function of these texts the book sheds new light on the role of the aesthetic in kierkegaard s authorship his surprising affinity for liturgy and sacrament and his overarching effort to conjoin eros for god with this worldly love
