controversial subject because we know that the soul is eternal we know that the soul has been in existence for infinity and we know that the soul is perfect so why would the soul have to evolve the answer to this question is complex and we may not be able to totally answer it using third dimensional terminology but it is an important question to answer because the nature of soul evolution is inherently connected to your experiences in the third dimension the soul in completing its evolutionary journey needs these experiences in the third dimension and it needs to complete the lessons here through david k miller chapters include soul evolution the nature of the soul enlightenment soul psychology and planetary healing soul group psychology restoring the self uncovering the mystery of the mental body negative self talk altered states of consciousness cosmic karma
