Mary Hays was an outspoken radical intellectual in the turbulent decade of the 1790s. She argued vehemently for the need to recognise the moral and rational qualities of women, the necessity of a better system of education for girls, and the importance of giving women without fortunes a career without servitude. In *The Victim of Prejudice*, Hays' second novel, first published in 1799, is a powerful indictment of man-made institutions such as the courts and legislative systems which favour persons of wealth and rank. In the novel, the metaphor of women's confinement becomes real as the heroine's worst nightmares, her horrors and sense of helplessness, become a physical reality. *The Victim of Prejudice* is of great interest for its strong feminist content, and it is both powerful and moving as a literary work. This edition makes this important late eighteenth-century text again available to a wide readership.

Volume 26 of *1650-1850 Ideas, Aesthetics and Inquiries in the Early Modern Era* travels beyond the usual discussions of power, identity, and cultural production to visit the purlieus and provinces of Britain's literary empire. Bulging at its bindings are essays investigating out of the way but influential ensembles: whether female religious enthusiasts, annotators of Maria Edgeworth's underappreciated works, or modern video-based Islamic superheroes energized by Mary Wollstonecraft's irreverence, the global impact of the local is celebrated in studies of the personal pronoun in Samuel Johnson's political writings and of the outsize role of a difficult old codger in catalyzing the literary
