mapungubwe cultural layers explores the archaeological site of mapungubwe a pre colonial kingdom in southern africa to reveal insights into the origins of social hierarchy and complex political systems flourishing between 1220 ad and 1300 ad mapungubwe offers a unique lens through which to understand the region s pre colonial history the book examines the evolution of regional trade networks and the genesis of leadership models arguing that mapungubwe represents a pivotal moment in the development of social and political complexity the book progresses through a detailed examination of

mapungubwe's archaeological layers beginning with an introduction to the geographical and historical context of iron age southern africa it meticulously analyzes evidence of social class divisions such as differentiated burial practices including the elite burials containing the famous gold rhinoceros the investigation extends into the sophisticated trade systems that sustained mapungubwe and the emergence of early forms of governance highlighting the kingdom's influence on subsequent african societies by integrating archaeological data scientific insights and oral histories mapungubwe cultural layers provides a comprehensive picture of life in this significant african kingdom the book connects archaeology with anthropology history and political science critically examining how the study of mapungubwe informs broader debates about the origins of social inequality and the diversity of leadership models in pre colonial africa

this volume presents the main lectures of the 22nd congress of the international organization for the study of the old testament iosot held in stellenbosch south africa in september 2016 sixteen internationally distinguished scholars present their current research on the hebrew bible including the literary history of the hebrew text its greek translation and history of interpretation some focus on archeological and iconographic sources and the reconstruction of ancient israelite religion while others discuss the formation of the biblical text and its impact for cultural memory the volume gives readers a representative view of the most recent developments in the study of the old testament

untold history illustrates how african history is intertwined with and foundational to american history the book begins this narrative in the fourteenth century when european seafarers discovered the coastal regions of africa describes the meeting of the three worlds aeur europe africa and the new world later known as america and details the increasing interactions of the three worlds after the 1450s the author dispels some of the misconceptions about pre colonial africa by presenting the history and culture of the african continent from a distinctively african lens as such this book chronicles some prominent african empires and kingdoms africa european bilateral trade relations the trans atlantic slave trade and contemporary africans in the united states the book highlights stories of contemporary africans residing in the united states and documents the contributions of early and contemporary africans to the history economic development culture and prominence of the united states of america it concludes with a snapshot of contemporary africa the book provides a framework for understanding the history of africa prior to the arrival of european merchants on its shores african civilizations cultures legacy and contributions to american educators can use the book to supplement their course on american history world history african american history in pre collegiate or collegiate settings this book can help educators to reimagine the teaching and learning of the united states history by centering on important narratives in africa and with africans in the american diaspora the book is organized chronologically and can help the reader to understand the past as it relates to the present world to facilitate teaching each chapter opens with a quotation that introduces the content of the chapter and ends with

study discussion questions that educators can use or adapt as appropriate for instruction and to ensure full comprehensive understanding of the content presented

a study of the history of intellectual and scientific racism in modern south africa

professor fage and professor oliver the editors of this collection are distinguished historians of africa and as founding editors of the journal of african history they both established the journal and used it to mark out developing areas of the subject in directing the journal they have pursued an active policy of commissioning articles in fields where the literature was scanty and in this volume they have collected together some of the most important articles they have published on african prehistory it is designed for the student of african history and the library that needs copies of frequently consulted papers to supplement its sets of periodicals all the articles contain either accounts of important research or more general review articles the book is illustrated with line diagrams and photographs one article which originally appeared in french has been translated into english

this volume critically examines sources of evidence and material from the archive that historically have been used to tell southern africa s pre colonial story

mapungubwe is one of south africa s best kept secrets the hill of the jackal was the centre of a thriving civilisation around 800 ad 1200 ad this work contains images of the gold artefacts the pottery and the beadwork together with a history of the civilisation

anthology from the year 1999 in the subject history africa grade 2 0 university of hamburg afrikanische studien language english abstract in europe a lot of historians have worked on african history for the period after the continent came under colonial rule but little has been written about african states contemporary to the european medieval period i e before the europeans arrived in africa especially the history of south eastern africa has been mostly the domain of white southern african researchers archaeologists historians and discoverers in the 19th and for the major part of the 20th century only since the independence of zimbabwe has a new generation of african researchers come to the fore but their work has been largely neglected in european literature the author tries to bridge this gap the work is particularly interesting as it tries to correlate the findings of three disciplines history archaeology and ethnology with the latter s particular subject of oral traditions ethno history can make a strong contribution where written sources end archaeology is important as early african societies did not produce written records but there is one element of sources which can help to go back in time from there the writings of islamic travelers and reporters which give rich evidence of the connections of their world to the south eastern african region from the 8th century onwards putting all these elements together the author gives a clearer picture of the formation of states in that region of africa and the role they played after they contacted global trade which centered around the indian ocean rim before the portuguese and later other european powers

destroyed that network of independent partners and replaced it by their own protectionist colonial rule more work has to be done heinrich bruellau a historian at heart had to earn his living as a manager and consultant his many travels led him to zimbabwe and other countries of the region whose liberation struggle he had supported from the beginning he followed on the lead of his historian gene to engage with researchers of the region he even had the honour of meeting peter garlake the great old man of zimbabwean archaeology in his home but also got encouragement from dawson munjeri who is now the representative of zimbabwe at unesco with this book he is inviting researchers to invest more work into the global trade network of the medieval period in order to get a better understanding of the importance of the african contribution to world trade long before it was subjected to subjugation by colonialism

cambridge monographs in african archaeology 69 series editors john alexander laurence smith and timothy insoll

the mapungubwe cultural landscape is one of the profound treasures of southern africa s social and archaeological history appropriately declared a world heritage site by the united nations educational scientific and cultural organisation unesco in 2003 contained within this landscape is indispensable information on precolonial state formation social hierarchies architecture of stone walled towns mineral processing and intercontinental trade and yet the mapungubwe state rose towered over its environs and then declined long before european colonial incursions mapungubwe reconsidered a living legacy contributes to the body of knowledge about mapungubwe straddling such issues as the relationships between humans and the environment management of mineral endowments and the form and impact of southern africa s global intercourse in this historical period
