so you think everyday life is boring hoo ee are you wrong there s so much extraordinary science going on from the minute you wake up to when you go to sleep while you re asleep too dara o briain takes you on a journey from the comfort of your favourite chair to the incredible science behind your everyday life and on into the future

propelled to fame by his two cultures lecture scientist turned novelist c p snow 1905 1980 here tells a story of hatred and ambition at the top of british science exposing how vital decisions were ultimately determined by politics today scientists and politicians are more contentious but snow s dramatic narrative remains the best guide

complete 1965 1968

there are areas of science that are off limits to the public and are not taught in our universities the science and technology of anti gravity and extracting energy from space itself was developed in the late 19th and early 20th century by scientists and experimenters like john worrell keely nicola tesla and thomas townsend brown but today this science is purposely overlooked and regulated to the world of black projects the publicly acknowledged space program is but a smoke screen to hide a secret space program overseen by nsa the cia and a secret branch of the u n that is so secret that even some u s presidents and congressional oversight committees are not even aware of it secret science and the secret space program will document and provide an in depth look at this secret science and technology and the secret space program that has already colonized mars built bases on our moon and other planet s moons and given us the ability to travel to the stars black science is so far ahead of acknowledged science that this book will seem like science fiction to many who read it

a number of converts to buddhism report paranormal experiences their accounts describe psychic abilities like clairvoyance and precognition out of body experiences near death experiences and encounters with other beings such as ghosts and deities and they often interpret these events through a specifically buddhist lens this book is a groundbreaking exploration of these phenomena and their implications for both humanistic and scientific study of the paranormal d e osto examines accounts of paranormal phenomena experienced by convert buddhists from around the world collected through an online survey and interviews placing them in the context of indian buddhist sources and recent scientific research they focus in detail on the life stories of two interviewees and the important role the paranormal has played in their lives these contemporary first person narratives demonstrate the continued importance of the psychic and paranormal within the buddhist tradition and they can be interpreted as a living buddhist folklore osto considers the limitations of both traditional religious views and western scientific studies of the paranormal and proposes instead a new buddhist phenomenological approach ultimately paranormal states contends these deeply mysterious and extraordinary experiences exceed current understandings and they can help bridge the gap between religious and scientific worldviews

the secret science behind miracles written by legendary author max freedom long is widely considered to be one of the top 100 greatest books of all time this great classic will surely attract a whole new generation of readers for many the secret science behind miracles is required reading for various courses and curriculums and for others who simply enjoy reading timeless pieces of classic literature this gem by max freedom long is highly recommended published by classic house books and beautifully produced the secret science behind miracles would make an ideal gift and it should be a part of everyone s personal library
