the WWII battle of Sidi Rezegh November December 1941 was part of a campaign to retake Eastern Libya partially successful it achieved the badly needed relief of Tobruk the New Zealand Division played a major role Peter Cox sets the scene for the fighting follows the stages of the action and recounts the often heroic stories of those who fought there

shortlisted for the 2021 Society for Army Historical Research's Templer Medal Operation Crusader launched in November 1941 was the third and final British attempt to relieve the Siege of Tobruk and break the German and Italian forces in North Africa after tough initial fighting the British made important gains only to be countered by a stunning breakthrough overseen personally by Lt General Erwin Rommel as the British situation teetered the Commander of the 8th Army Lt General Alan Cunningham was relieved of duty by his superior General Claude Auchinleck this decision changed the direction of the battle and perhaps the war itself why and how Cunningham was relieved has been the subject of commentary and speculation since it occurred using newly discovered evidence Alexander Joffe rethinks the events that brought about the sudden relief of the operation's commanding officer including insubordination the book then discusses how narratives regarding the operation were created were incorporated into British and Commonwealth official and unofficial historical writing about the war and contributed to British historical memory based on a decade of archival work the book presents a new and detailed analysis of a consequential battle and importantly of how its history was written and received in the context of post-war Britain

sir Geoffrey Cox described Sidi Rezegh fought during Operation Crusader in Libya over November

and December 1941 as the forgotten battle of the desert war the objective of Crusader was to retake Cyrenaica the eastern region of Libya and ultimately drive the Italians and Germans out of North Africa the campaign also involved British and South African troops and did achieve the badly needed relief of Tobruk despite the importance of this campaign in achieving British victory in North Africa it has largely been neglected by historians failing to receive as much attention as Crete El Alamein or Cassino yet more New Zealand soldiers were killed or taken prisoner during Crusader than in any other campaign fought by the division during the war Peter Cox whose father fought at Sidi Rezegh draws on his experience of twice visiting the battlefield to tell the story of this complex costly campaign he sets the scene for the fighting in Libya describes the unforgiving and inhospitable desert landscape follows the stages of the action itself and recounts the often moving and heroic stories of those who fought there many never returned home this is both an accessible account of a significant New Zealand contribution to World War II and a tribute to the thousands of men who took part in this punishing battle

Official history is a misunderstood genre of historical writing which attracts much negative comment from non official historians but about which very little detail is actually known this book examines the development of official history programs in Canada South Africa Australia and New Zealand over the course of the twentieth century looking at the ways in which they developed and the contributions each made to their respective national historiography the second part of the work develops some themes from the first and takes the official histories of the Second World War as case studies drawing on programs in Australia Britain and the United States these essays examine the relationship between the histories the historians and their sponsoring institutions they assess the impact of the histories on historical understanding of the Second World War they also consider the impact that contemporary events during the Cold War had on the writing of the official history

After a detailed discussion of the Alamein battles July through November 1942 and Rommel's retreat to Tunisia ending in January 1943 Watson recounts the British and American invasion of North Africa and the confused web of Axis command that spawned the debacle at Medenine book jacket
