in his account of text and textual meaning pettersson demonstrates that a text as commonly conceived is not only a verbal structure but also a physical entity two kinds of phenomena which do not in fact add up to a unitary object he describes this current notion of text as convenient enough for many practical purposes but inadequate in discussions of a theoretically more demanding nature having clearly demonstrated its intellectual drawbacks he develops an alternative boldly revisionary way of thinking about text and textual meaning his careful argument is in challenging dialogue with assumptions about language in use to be found in a wide range of present day literary theory linguistics philosophical aesthetics and philosophy of language

a collection of rick takahashi s most effective fly designs this book emphasizes rick s background in art color and design theory as well as share tying tips and fishing methods takahashi was the primary author

of modern midges and modern terrestrials and while recipes for his flies were included in these books the tying steps and stories behind them were not flies included in the book will cover the range of trout fly design possibilities and the major food groups

one of the most productive of all laboratory animals drosophila has been a key tool in genetics research for nearly a century at the center of drosophila culture from 1910 to 1940 was the school of thomas hunt morgan and his students alfred sturtevant and calvin bridges who by inbreeding fruit flies created a model laboratory creature the standard fly by examining the material culture and working customs of morgan s research group the author brings to light essential features of the practice of experimental science this book takes a broad view of experimental work ranging from how the fly was introduced into the laboratory and how it was physically redesigned for use in genetic mapping to how the drosophilists organized an international network for exchanging fly stocks that spread their practices around the world back cover

the toad and the frog and other fables provides an entertaining and instructive set of new fables for young readers the ten fables bring in a range of animals like pigs frogs snakes hares moles mice alligators and more the fables are not overly didactic but they do provide some valuable lessons for life in general many of the settings and characters were inspired by the childhood of the author growing up on a farm our increasingly urban lives provide some advantages to young readers but the lack of interaction with nature and farm animals also makes the connection to our environment more difficult the realistic settings and actions of the animal characters recreate some of these life experiences the realistic settings are combined with the fantasy of talking animals to provide interesting stories with something learned by the characters the lessons are applicable to our lives and are provided to support the important formation of our life experience the result combines entertainment with instruction some of life s best lessons are those learned unintentionally

with colorful concise and easy to follow illustrations the l l bean fly fishing handbook offers a fun introduction to the sport this friendly volume coaches readers on the basics of fly casting and assembly of tackle without demanding that the reader invest tons of time and money the goal here is getting started and this useful portable book won t sit on the shelf it s meant to be taken outdoors for easy consultation author dave whitlock covers the foods fish eat and how to imitate those foods details the necessary fly assortment for novices and provides a useful glossary chapters added in this edition include approaches to saltwater fish species ethics and sportsmanship and methods for fishing from boats and float tubes

includes the institute s proceedings
