insightful draws from disparate corners of history and science to celebrate our compulsion to storify everything around us the new york times book review humans live in landscapes of make believe we spin fantasies we devour novels films and plays even sporting events and criminal trials unfold as narratives yet the world of story has remained an undiscovered and unmapped country it s easy to say that humans are wired for story but why in this delightful original book jonathan gottschall offers the first unified theory of storytelling he argues that stories help us navigate life s complex social problems just as flight simulators prepare pilots for difficult situations storytelling has evolved like other behaviors to ensure our survival drawing on the latest research in neuroscience psychology and evolutionary biology gottschall tells us what it means to be a storytelling animal did you know that the more absorbed you are in a story the more it changes your behavior that all children act out the same kinds of stories whether they grow up in a slum or a suburb that people who read more fiction are more empathetic of course our story instinct

has a darker side it makes us vulnerable to conspiracy theories advertisements and narratives about ourselves that are more truthy than true national myths can also be terribly dangerous hitler s ambitions were partly fueled by a story but as gottschall shows stories can also powerfully change the world for the better we know we are master shapers of story the storytelling animal finally reveals how stories shape us lively san francisco chronicle absorbing minneapolis star tribune one of my favorite evolutionary psych writers always insightful and witty steven pinker

as a business leader you re not just one thing you wear a variety of hats and you have to show up appropriately in every context that s a tall order but it becomes a whole lot easier when you have emotional intelligence on your side you operate in a corporate environment yet you have to take a personal approach to managing your team and interacting with partners and other leaders that after all is how you build trust and understanding and when that s the foundation of your business you have a team that s on your side and ready to bring your goals to life inside you ll discover what emotional intelligence is and how it affects your relationships how developing emotional intelligence can significantly improve your life in all areas how to decode the emotional and psychological messages that affect your thought pattern the underlying causes of poor interpersonal skills the 21 day challenge to help you restructure your life and improve your relationships improve your personal and professional relationships by learning a range of mental skills that can help you to successfully manage both yourself and the demands of working with others teaching you to stay in control interpret body language and cope with negativity this practical guide will help you to become aware of your own feelings and those of others understand them and manage their impact

good sermon illustrations are among a preacher s most persistent needs however carlos e wilton argues that asking where to find good illustrations is the wrong question in illuminating sermons wilton offers practical wisdom about how preachers can curate their own materials that extend beyond sermon illustrations using museum curation as a lens this book presents the foundational habit of holy wonder to help preachers recognize short textual materials metaphors stories quotations and poetry that shimmer with the possibility of inspiration the book casts an imaginative vision for preachers to develop lifelong disciplines of attention creativity discernment and personal organization as they acquire store and deploy materials that illuminate rather than illustrate illuminating sermons provides an accessible approach for preachers to develop and sustain a practice to curate their own sermon illuminations this easy to use approach makes the book ideal for seminary students in homiletics preachers and lay ministry educators who desire an innovative approach toward sermon preparation and development

this edited book was produced through a transnational and transdisciplinary unesco chair project on gender and vulnerability in disaster risk reduction support contributors come from five disaster prone asian countries and the chapters reflect their rich knowledge and practical experience in disaster management and humanitarian assistance the chapters all with a focus on gender and vulnerability illustrate that gender can make people especially women vulnerable the chapters address the experiences of state and non state actors responding to disaster and promoting recovery at the local level however while women and vulnerable people may be victims of disasters they also serve as agents for recovery and voices for better disaster preparedness in sharing both successes and failures as well as suggestions for the future this book speaks to the need for transdisciplinary knowledge and multilevel coordination as well as full equality for all genders and respect for human rights in order to cope with increasingly more frequent intense and complex emergencies this book is of interest as a text to students in a variety of disciplines who are focusing on disaster and health emergencies as well as to practitioners and others promoting disaster risk reduction and resilience

instant new york times bestseller a new york times notable book of 2018 one of the economist s books of the year my new favorite book of all time bill gates if you think the world is coming to an end think again people are living longer healthier freer and happier lives and while our problems are formidable the solutions lie in the enlightenment ideal of using reason and science by the author of the new book rationality is the world really falling apart is the ideal of progress obsolete in this elegant assessment of the human condition in the third millennium cognitive scientist and public intellectual steven pinker urges us to step back from the gory headlines and prophecies of doom which play to our psychological biases instead follow the data in seventy five jaw dropping graphs pinker shows that life health prosperity safety peace knowledge and happiness are on the rise not just in the west but worldwide this progress is not the result of some cosmic force it is a gift of the enlightenment the conviction that reason and science can enhance human flourishing far from being a naïve hope the enlightenment we now know has worked but more than ever it needs a vigorous defense the enlightenment project swims against currents of human nature tribalism authoritarianism demonization magical thinking which demagogues are all too willing to exploit many commentators committed to political religious or romantic ideologies fight a rearguard action against it the result is a corrosive

fatalism and a willingness to wreck the precious institutions of liberal democracy and global cooperation with intellectual depth and literary flair enlightenment now makes the case for reason science and humanism the ideals we need to confront our problems and continue our progress

along a stream a dam pops out of the water beavers are busy at work these aquatic mammals have unique traits that aid them in building the perfect lodge to raise young beavers and keep predators away mary holland s vibrant photographs document the beavers activities through the course of a year do these beavers ever take a break follow along as they pop through the winter ice to begin the busy year of eating bark building dams and gathering food just in time for winter to come again

a collection of short stories anecdotes fables and folktales involving animals from various authors and traditions

storytelling a tradition that built human civilization may soon destroy it humans are storytelling animals stories are what make our societies possible countless books celebrate their virtues but jonathan gottschall an expert on the science of stories argues that there is a dark side to storytelling we can no longer ignore storytelling the very tradition that built human civilization may be the thing that destroys it in the story paradox gottschall explores how a broad consortium of psychologists communications specialists neuroscientists and literary quants are using the scientific method to study how stories affect our brains the results challenge the idea that storytelling is an obvious force for good in human life yes storytelling can bind groups together but it is also the main force dragging people apart and it s the best method we ve ever devised for manipulating each

other by circumventing rational thought behind all civilization's greatest ills: environmental destruction, runaway demagogues, warfare. You will always find the same master factor: a mind-disordering story. Gottschall argues that societies succeed or fail depending on how they manage these tensions, and it has only become harder as new technologies that amplify the effects of disinformation, campaigns, conspiracy theories, and fake news make separating fact from fiction nearly impossible. With clarity and conviction, Gottschall reveals why our biggest asset has become our greatest threat and what, if anything, can be done. It is a call to stop asking how we can change the world through stories and start asking how we can save the world from stories.

Updated for the new CHC50121 qualification, this new resource offers complete coverage of the 12 core units plus three of the most popular electives. Content is user-friendly and engaging, with language appropriate for vet students. Holistic case studies present practical applications of the chapter content, helping students to apply chapter teachings to real-world scenarios.

In some animal stories, Charles G. D. S. Roberts deftly intertwines idiomatic prose with a rich, imaginative narrative style that captivates both children and adults. Set against a backdrop of Canadian wilderness, each story offers poignant observations about the natural world, clever anthropomorphism, and subtle moral lessons that resonate deeply with the reader. The artful interplay of humor and pathos in Roberts's storytelling highlights his reverence for nature and the complexity of animal life, making this collection a cornerstone of early 20th-century children's literature. While echoing the literary influences of contemporaries like Kenneth Grahame and A. A. Milne, Charles G. D. S. Roberts often hailed as the father of Canadian literature was an eminent poet, novelist, and naturalist whose eclectic experiences in the Canadian landscape shaped his work. His deep affection for wildlife, coupled with his literary ambitions, inspires the vivid portrayals found in this collection. Roberts's keen observations of animal behavior alongside his advocacy for environmental conservation convey a heartfelt connection with nature that permeates his narratives. I highly recommend some animal stories to readers who appreciate a blend of whimsy and insight in literature. This collection not only entertains but also encourages an appreciation for the animal kingdom, serving as a reminder of our shared environment and responsibilities. Roberts's enchanting tales remain timeless, inviting readers of all ages to ponder the intricate relationships between humanity and animal life. In this enriched edition, we have carefully created added value for your reading experience: a comprehensive introduction outlines these selected works, unifying features, themes, or stylistic evolutions; a historical context section situates the works in their broader era, social currents, cultural trends, and key events that underpin their creation; a concise synopsis selection offers an accessible overview of the included texts, helping readers navigate plotlines and main ideas without revealing critical twists; a unified analysis examines recurring motifs and stylistic hallmarks across the collection, tying the stories together while spotlighting the different works' strengths; reflection questions inspire deeper contemplation of the author's overarching message, inviting readers to draw connections among different texts and relate them to modern contexts; lastly, our hand-picked memorable quotes distill pivotal lines and turning points, serving as touchstones for the
