this is is the first critical study of one of the most important women writers of the early eighteenth century lady mary wortley montagu 1689 1762 who produced a body of erudite and entertaining correspondence that spanned more than fifty years lady mary s letters illuminate the difficulties encountered by a sensitive intelligent and gifted woman writer living through an era of significant cultural change these letters display the tensions inherent in the competing demands of public and private life revealing lady mary s own discomfort about the problems of authorship and authority in an age that held publication to be an improper activity for respectable women through the discourse of supposedly private letters lady mary was able to find an avenue for her talents that brought her public stature without violating the imperatives of her position as a woman and an aristocrat cynthia lowenthal argues persuasively that lady mary s letters themselves central to the establishment of the familiar letter as an important eighteenth century genre were self consciously constructed as literary artifacts and crafted as part of a larger female epistolary tradition moreover lowenthal contends the works of lady mary are essential to the feminist recuperation of women s writing precisely because she provided an aristocratic critique a voice often ignored of the class and gender codes of her day

given the rise of globalization and coinciding increase in cultural clashes among diverse nations it has become eminently clear to scholars of political thought that there exists a critical gap in the knowledge of non western philosophies and how western thought has been influenced by them this gap has led to a severely diminished capacity of both state and nonstate actors to communicate effectively on a global scale the political theorists area scholars and intellectual historians gathered here by takashi shogimen and cary j nederman examine the exchange of political ideas between europe and asia from the middle ages to the early twentieth century they establish the need for comparative political thought showing that in order to fully grasp the origins and achievements of the west historians of political thought must incorporate asian political discourse and ideas into their understanding by engaging in comparative studies this volume proves the necessity of a cross disciplinary approach in guiding the study of the global history of political thought
