first edition 1939 second edition 1946

once considered a one dimensional advocate of pure realpolitik revisionist work on the legacy of hans morgenthau has uncovered transcendent themes in his thought on the importance of morality in statecraft bridging the gap in existing literature m benjamin mollov s important work brings new understanding of the very real impact which anti semitism and morgenthau s own german jewish moral and spiritual heritage had on his political thought a liberal rather than a classical realist morgenthau s writing and teaching on issues ranging from soviet jewry to israel nuclear proliferation and the vietnam war reveal a moral philosophical even spiritual approach to the mission of political science this is an important work for students of political science and international relations seeking a greater understanding of the very real impact of religion on the makers of cold war foreign policy

political realism dominated the field of international relations during the cold war since then however its fortunes have been mixed pushed onto the backfoot during 1990s it has in recent years retuned to the centre of scholarly debate despite its prominence in international relations however realism plays only a marginal role in contemporary international political theory it is often associated with a form of crude realpolitik that ignores the ethical dimensions of political life the contributors to this book explore alternative understandings of realism seeing it as a diverse and complex mode of political and ethical theorising rather than simply a value neutral social scientific theory or the unreflective defence of the national interest a number of the chapters offer critical interpretations of key figures in the canon of twentieth century realism including hans morgenthau e h carr and reinhold niebuhr others seek to widen the lens through which realism is usually viewed exploring the writings of martin heidegger hannah arendt and leo strauss finally a number of the contributors engage with general issues in international political theory including the meaning and value of pessimism the

relationship between power and ethics the purpose of normative political theory and what might constitute political reality straddling international relations and political theory this book makes a significant contribution to both fields

Edward Carr is widely remembered as an influential theorist of international relations the scourge of inter war idealists he became the best known Briton in a generation of predominantly American political realists but Carr's realism differed greatly from that of his contemporaries a vigorous advocate of social and economic planning and friend of the Soviet Union he stood closer to Lenin than to Morgenthau in this book Charles Jones makes sense of Carr's distinctive form of realism by examining his rhetoric and the reciprocal relationship between theory and policy making in his writings close attention is paid to the period from 1936 when Carr left the Foreign Office through his subsequent career as a one man Foreign Ministry at Aberystwyth the Ministry of Information and above all the times culminating in the final frustration of his schemes for continued British world power in 1947

a challenging critique of the pathologies and blind spots of the liberal international order

challenging the received notions of international relations theory about a central tradition realism Molloy demonstrates how a belief in a mode of theorization has distorted realism forcing the theory of power politics in IR into a paradigmatic strait jacket that is simply inadequate and inappropriate to the task of encompassing its diversity

Inventing International Society is a narrative history of the English school of international relations after Edward Carr departed from academic international relations in the late 1940s Martin Wight became the most theoretically innovative scholar in the discipline Wight found an institutional setting for his ideas in the British Committee a group which Herbert Butterfield inaugurated in 1959 the book argues that this date should be regarded as the origin of a distinctive English school of international relations in addition to tracing the history of

the school the book argues that later english school scholars such as hedley bull and r j vincent made a significant contribution to the new normative thinking in international relations

this book provides an authoritative account of the controversy about the first great debate in the field of international relations of all the self images of international relations none is as pervasive and enduring as the notion that a great debate pitting idealists against realists took place in the 1940s the story of the first great debate continues to structure the contemporary identity of international relations yet in recent years revisionist historians have challenged the conventional wisdom that the field experienced such a debate drawing on expert contributors working in canada europe the united kingdom and the united states this book includes key participants in the historiographical controversy the book assembles the existing scholarship and provides a thorough analysis of the status of the first great debate in the history of international relations it is an invaluable examination of the causes and future direction of idealist and realist arguments international relations and the first great debate will be of interest to students and scholars concerned with the foundations of international relations

e h carr s twenty years crisis is a classic work in international relations published in 1939 on the eve of world war ii it was immediately recognized by friend and foe alike as a defining work in the fledgling discipline the author was one of the most influential and controversial intellectuals of the twentieth century the issues and themes he develops in this book continue to have relevance to modern day concerns with power and its distribution in the international system michael cox s critical introduction provides the reader with background information about the author the context for the book its main themes and contemporary relevance written with the student in mind it offers a guide to understanding a complex but crucial text now updated with a new preface from michael cox

this book uses the agenda of e h carr and most obviously extends the title of his classic book the twenty years crisis as the point of

departure to discuss aspects of the world historical crisis from the end of the first world war until the end of the 1990s this crisis identified by 80 years of destructive wars inequalities in life chances and today s casualties of the global political economy has shaped both the practices of international politics and the way they have been conceptualised and reconceptualised by specialists in international relations a distinguished group of contributors have written about the development of the academic discipline of international relations in the inter war years the cold war and post cold war eras ethics power and nationalism the conditions of peace and the roles of law and peaceful change and finally considering future prospects about globalization and the end of the old order
