age range 0 to 3 baby look is a novelty board book that aims to grab a baby's attention and keep it. It introduces first words and concepts in a fun and engaging way with text inviting babies to touch the book, spin the wheel, move the sliders, say the words, pull funny faces in the mirror or imitate animals. It is bright, bold and built for babies with thick board pages and mechanisms that will endure enthusiastic handling. Every page turn reveals something new to learn from colours to counting animals to actions emotions to parts of the body. It's a baby book to grow up with through each developmental phase making it an enjoyable and long lasting gift for a child 8 months to 2 years old printed on fsc paper from sustainable forests.

colorful pictures depict different babies with captions including playful baby and happy baby

show your child how to fall in love with reading at a very early age. Baby's first book animals high contrast black white book for newborns. This charming high contrast black and white book is an introduction to bugs insects and includes bold images to help stimulate your child's developing mind. Designed for babies 6 weeks to 6 months, the bold black and white high contrast images will engage your baby and provide a calming natural learning experience. Babies respond to the strong contrast between black and white which helps to stimulate development within your baby's eyes. With all the activity going on around a newborn baby, it is easy for his/her brain to become completely overwhelmed. High contrast shapes and patterns provide your baby with something simple and engaging to focus on which in turn will allow his/her mind to rest. High contrast shapes are usually very basic and may even appear to be a little boring to adults but they are designed to hold your baby's attention. Researchers have shown that newborns actually prefer to look at black and white images rather than bright colors that you will see in most general newborn baby books. Contrasting colors are most appealing to babies. Black and white provide the greatest contrast. Black and white are the easiest for your baby to perceive. Fixation: your baby can see clearly at birth and can fixate and maintain his/her gaze intently on an object allowing your child to repeatedly look at these contrasting black and white images will help increase your baby's attention span. There have been studies where many parents have reported that their newborn's attention span increased from 10 seconds to 90 seconds after only one week of looking at black and white image books. For just a few minutes a day tracking your baby will track appealing objects with his/her eyes. The more appealing the object the more intense and prolonged the tracking. When you use high contrast images your child will be able to track with more ease because of his/her increased interest. Tracking helps your baby to learn where an object is and how it differs from its background. Scanning when your baby scans he/she learns how to see and compare entire objects. This ability eventually helps him/her to distinguish all the objects in the environment. The large images in this book will help to calm and also captivate your baby's interest while at the same time provide the building blocks for his/her developing mind.

with entries for all the special moments in a baby's life and lots of opportunities to stick in photographs souvenirs and to write down your ever changing thoughts. My baby book is the perfect place to record the life of your precious child.
