in this text internationl theologians discuss the role of theology in the doctrinal foundations of different traditions its role in the development of dogmas and liturgies and possible future roles for theology in the modern world

what is the task of theology in a complex religious and secular world what are theologians called to contribute to society the churches and the academy can theology be both fully faithful to christian tradition and scripture and fully open to the challenges of the twenty first century in this book an international team of contributors including some of the best known names in the field respond to these questions in programmatic essays that set the direction for future debates about the vocation of theology david ford in

whose honor the collection is produced has been for many years a key figure in articulating and shaping the role of contemporary theology the contributors are his colleagues collaborators and former students and their essays engage in dialogue with his work the main unifying feature of this exciting collection is not ford s work per se however but a shared engagement with the pressing question of theology s vocation today

this book is the first of two volumes that consider the state and relevance of reformed theology today in light of the 500 year celebration of the reformation in 2017 it contains biblical historical theological and systematic theological perspectives on reformed theology and is specifically aimed at discussing the contemporary relevance of a reformed theological approach though the themes are wide ranging and by no means exhaustive it will give the reader a sense of the current debates in reformed circles and the various approaches followed to address contemporary issues true to the reformed slogan of sola scriptura chapters 1 4 deal with biblical interpretation and methodology in the spirit of semper reformanda chapters 5 9 discuss various historical theological and systematic theological topics such as the 16th century debates between the calvinists and anabaptists the historical effects of important events during 1516 luther s concept of paradoxical freedom and the contemporary relevance of calvin s theocentric approach to anthropology the last chapter deals with the dialogue between the roman catholic tradition and the reformed tradition 500 years after the reformation foreword

this book brings together twelve essays on a wide and rich range of topics discussions and methodologies in african theology today even the book s limitations provide an insight into the situation its variety also indicates the absence of comprehensive and sustained discussion flowing from the economic and institutional limitation of africa where research in theology is often beyond the means of many theologians then there is the difficulty of staying abreast of continually changing contexts and events in africa itself for all of these reasons then a compelling introduction to a dynamic analysis and conversation
