food what we eat how much we eat how it is produced and prepared and its cultural and ecological significance is an increasingly significant topic not only for scholars but for all of us theology on the menu is the first systematic and historical assessment of christian attitudes to food and its role in shaping christian identity david grumett and rachel muers unfold a fascinating history of feasting and fasting food regulations and resistance to regulation the symbolism attached to particular foods the relationship between diet and doctrine and how food has shaped inter religious encounters everyone interested in christian approaches to food and diet or seeking to understand how theology can engage fruitfully with everyday life will find this book a stimulus and an inspiration

the handbook takes as its subject the complex phenomenon of christian monasticism it addresses for the first time in one volume the multiple strands of christian monastic practice forty four essays consider historical and thematic aspects of the catholic eastern orthodox oriental orthodox protestant and anglican traditions as well as contemporary new monasticism the essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day taken together they offer not a narrative survey but rather a map of the vast terrain the intention of the handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism it presents the work of both academic and monastic authors

and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view the authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues they indicate developing trends in their areas of specialisation the individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies in today s world where there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions this publication is especially timely

crusades covers seven hundred years from the first crusade 1095 1102 to the fall of malta 1798 and draws together scholars working on theatres of war their home fronts and settlements from the baltic to africa and from spain to the near east and on theology law literature art numismatics and economic social political and military history routledge publishes this journal for the society for the study of the crusades and the latin east particular attention is given to the publication of historical sources in all relevant languages narrative homiletic and documentary in trustworthy editions but studies and interpretative essays are welcomed too crusades appears in both print and online editions

over the past decade there has been a remarkable flowering of interest in food and nutrition both within the popular media and in academia scholars are increasingly using foodways food systems and eating habits as a new unit of analysis within their own disciplines and students are rushing into classes and formal degree programs focused on food introduced by the editor and including original articles by over thirty leading food scholars from around the world the

routledge international handbook of food studies offers students scholars and all those interested in food related research a one stop easy to use reference guide each article includes a brief history of food research within a discipline or on a particular topic a discussion of research methodologies and ideological or theoretical positions resources for research including archives grants and fellowship opportunities as well as suggestions for further study each entry also explains the logistics of succeeding as a student and professional in food studies this clear direct handbook will appeal to those hoping to start a career in academic food studies as well as those hoping to shift their research to a food related project strongly interdisciplinary this work will be of interest to students and scholars throughout the social sciences and humanities

intended for students general readers vegetarians and vegans as well as those interested in animal welfare and liberation this a z encyclopedia explores the historical and cultural significance of vegetarianism in the united states and beyond vegetarianism in the united states did not start in the 1960s it has a much longer complex history going back to the early 1800s cultural encyclopedia of vegetarianism examines that history through the lens of culture focusing on what vegetarianism has had to say to and about americans this a z encyclopedia brings together the work of a number of scholars from diverse fields including history sociology philosophy religious studies anthropology nutrition american studies religious studies women s and gender history and the history of medicine approximately 100 essay entries cover cultural and historical aspects of vegetarianism primarily but not exclusively in relation to the united states shedding light on the practice s roots in ancient cultures and challenging popular myths and misconceptions related to both

vegetarianism and veganism with discussions on everything from activist movements to cookbooks the encyclopedia offers a unique wide ranging exploration that will appeal to students practitioners and anyone else who wants to know more

this book presents an authoritative and comprehensive survey of human practice in relation to other animals together with a christian ethical analysis building on the theological account of animals which david clough developed in on animals volume i systematic theology 2012 it argues that a christian understanding of other animals has radical implications for their treatment by humans with the human use and abuse of non human animals for food the most urgent immediate priority following an introduction examining the task of theological ethics in relation to non human animals and the way it relates to other accounts of animal ethics this book surveys and assess the use humans make of other animals for food for clothing for labour as research subjects for sport and entertainment as pets or companions and human impacts on wild animals the result is both a state of the art account of what humans are doing to other animals and a persuasive argument that christians in particular have strong faith based reasons to acknowledge the significance of the issues raised and change their practice in response

this volume considers the interconnectedness of all creatures in relation to our planetary boundaries through our constant consumption of resources we have had a distinctly negative impact on the world around us affecting everything from the weather food availability sea levels and the social fabric of our society this book explores how we arrived at such an unstable world and offers ecological theological and economically sustainable solutions to a global crisis

a wide ranging exploration of the daily lives of ordinary coptic christians from late antiquity until today this volume brings together leading experts from a range of disciplines to examine aspects of the daily lived experiences of egypt s coptic christian minority from late antiquity to the present in doing so it serves as a supplement and a corrective to institutional or theological narratives which are generally rooted in studying the wielders of historical power and control coptic culture and community reveals the humanity of the coptic tradition giving granular depth to how copts have lived their lives through and because of their faith for two thousand years the first three sections consider in turn the breadth of the daily life approach perspectives on poverty and power in a variety of different contexts and matters of identity and persecution the final section reflects on the global coptic diaspora bringing themes studied for the early coptic church into dialog with coptic experiences today these broad categories help to link fundamental questions of socio religious history with unique aspects of coptic culture and its vibrant communities of individuals contributors nicola aravecchia washington university in st louis st louis missouri usa mariam f ayad the american university in cairo cairo egypt renate dekker leiden the netherlands lois m farag luther seminary st paul minnesota usa ihab khalil coptic museum of canada scarborough ontario canada a d macdonald sydney australia ash melika california baptist university riverside california usa samuel moawad institute of egyptology and coptology münster germany helene moussa coptic museum of canada scarborough ontario canada alanna nobbs macquarie university sydney australia carolyn ramzy carleton university ottawa ontario canada christina thérèse rooijakkers leiden university oegstgeest the netherlands youhanna nessim youssef sankt ignatios college university college stockholm sweden
