a portion of the revenue from this book's sales will be donated to doctors without borders to assist the humanitarian work of nurses, doctors and other health care providers in the fight against COVID-19 and beyond. Concepts and cases in nursing ethics is an introduction to contemporary ethical issues in health care designed especially for Canadian audiences. The book is organized around six key concepts: beneficence, autonomy, truth telling, confidentiality, justice and integrity. Each of these concepts is explained and discussed with reference to professional and legal norms. The discussion is then supplemented by case studies that exemplify the relevant concepts and show how each applies in health care and nursing practice. This new fourth edition includes an added chapter on end of life issues and it is revised throughout to reflect the latest developments on topics such as global health ethics, cultural competence, social media and palliative sedation as well as ethical issues relating to COVID-19.

Now in its fourth edition, Chang and Daly's *Transitions in Nursing* continues to offer fresh insights and discussions around the issues and challenges faced by senior nursing students when making the transition to nursing practice. *Transitions in Nursing 4th Edition* is divided into three sections that reflect the transitional changes common to nursing students: Section 1 from student to graduate, Section 2 skills for dealing with the world of work, and Section 3 organisational environments. Featuring contributions from a range of leading academics and clinicians, Chang and Daly's *Transitions in Nursing 4th Edition* provides students with a number of strategies that can be tested and applied in practice. Its accessible and practical approach will appeal to nursing students while offering a valuable resource for practising nurses, nurse educators and administrators. Chang and Daly's *Transitions in Nursing 4th Edition* will continue to challenge, motivate and support all nursing students as they transition to practising registered nurses. Chang and Daly's highly respected text assists students when preparing for their first nursing role by addressing key issues such as team work, organisational culture, stress management, communication skills, professional development, strategies for self-care, new chapters on evidence-based practice, knowledge translation, a practical guide to establishing and maintaining a professional identity, portfolios and career progression, transition into practice, the regulatory framework for nursing, stronger focus on organisational culture, clinical reasoning, conflict resolution, skills and competencies and requirements of professional portfolios, updated recommended readings and revised case study, reflective questions. All chapters have been updated to reflect current practice.
