what makes people behave as they do are people ordinarily aware of what they are doing or are their behaviors the result of hidden unconscious motives are some people naturally good and others basically evil or do all people have potential to be either good or evil is human conduct largely a product of nature or is it shaped mostly by environmental influences can people freely choose to mold their personality or are their lives

determined by forces beyond their control are people best described by their similarities or is uniqueness the dominant characteristic of humans what causes some people to develop disordered personalities whereas others seem to grow toward psychological health these questions have been asked and debated by philosophers scholars and religious thinkers for several thousand years but most of these discussions were based on personal opinions that were colored by political economic religious and social considerations then near the end of the 19th century some progress was made in humanity's ability to organize explain and predict its own actions the emergence of psychology as the scientific study of human behavior marked the beginning of a more systematic approach to the study of human personality this edition continues to emphasize the strong and unique features of earlier editions namely the overviews near the beginning of each chapter a lively writing style the thought provoking concepts of humanity as seen by each theorist and the structured evaluations of each theory

the 8th edition of theories of personality follows in the tradition of the previous versions by centering on the premise that personalities are a reflection of the unique cultural background family experiences personalities and professional training of their originators the book begins by acquainting students with the meaning of personality and providing them with a solid foundation for understanding the nature of theory as well as its crucial contributions to science the chapters that follow present twenty three major theories coverage of each theory also encompasses a biographical sketch of each theorist related research and applications to real life changes in the 8th edition included a new chapter 8 on evolutionary personality theory focusing on the work of david buss the related research sections in each chapter have also been updated

this sixth edition of theories of personality continues to provide comprehensive coverage of the most influential theorists of personality
