for teaching and learning it has established a role as essential reading for all students of development studies as well as those in cognate areas of geography international relations politics sociology anthropology and economics

superb how refreshing to see a handbook that eschews convention and explores the richness and diversity of the geographical imagination in such stimulating and challenging ways peter dicken university of manchester stands out as an innovative and exciting contribution that exceeds the genre sallie a marston university of arizona captures wonderfully the richness and complexity of the worlds that human beings inhabit this is a stand out among handbooks lily kong national university of singapore this wonderfully unconventional book demonstrates human geography s character and significance not by marching through traditional themes but by presenting a set of geographical essays on basic ideas practices and concerns alexander b murphy university of oregon this sage handbook stands out for its capacity to provoke the reader to think anew about human geography essays that offer some profoundly original insights into what it means to engage geographically with the world eric sheppard ucla published in association with the journal progress in human geography edited and written by the principal scholars in the discipline this handbook demonstrates the difference that thinking about the world geographically makes each section considers how human geography shapes the world interrogates it and intervenes in it it includes a major retrospective and prospective introductory essay with three substantive sections on imagining human geographies practising human geographies living human geographies the handbook also has an innovative multimedia component of conversations about key issues in human geography as well as an overview of human geography from the editors a key reference for any scholar interested in questions about what difference it makes to think spatially or geographically about the world this handbook is a rich and textured statement about the geographical imagination

this book examines the failure of development in central america where despite billions of dollars of development funding and positive indicators of economic growth poverty remains entrenched and violence endemic martin mowforth shows how development is predicated on force and systematic violence through which the world s most powerful governments financial institutions and companies punish the global south crucially the analysis in the violence of development comes from many development project case studies and over sixty interviews with a range of people in central america including nuns politicians ngo representatives trade unionists indigenous leaders and human rights defenders this book is a compelling synthesis of first hand research and development theory

providing a critical overview of transnationalism as a concept this handbook looks at its growing influence in an era of high speed globalised interconnectivity it offers crucial insights on how approaches to transnationalism have altered how we think about social life from the family to the nation state whilst also challenging the predominance of methodologically nationalist analyses

among the many achievements of the feminist movement of the 1970s was the unprecedented influx of women into academia over the last 25 years women have entered the social sciences in huge numbers bringing with them new perspectives and new insights into the social world this special issue of the annals reflects on this multivocal richly textured and dynamic revolution from anthropology to psychology to geography to criminology and more leading feminists reflect on the most significant contributions of feminist activism and feminist research to their fields two main themes run through this volume the relationship between feminist scholarship and feminist activism and the enduring controversies and future direction of feminist social science the contributions run the gamut from the impact of feminism on specific social science disciplines such as family studies archaeology political science and media studies to the influence of feminist thought on specific topics such as federally funded social science migration media practices and sexuality the main conclusion of this volume is that where reigning paradigms are strong and the accepted methodologies are limited feminist perspectives tend to be marginalized on the other hand fields that are theoretically eclectic and interdisciplinary appear to be the most welcoming to feminist influence

this volume joins the ongoing discourse on gender relations in contemporary asia with its fascinating case studies from multidisciplinary perspectives it compares women s roles constraints and copings strategies across a wide range of societies in east and southeast asia
