this book systematically assesses the political and social values of the more than 1.3 billion Catholics around the globe by far the largest denomination of Western Christianity based on an extensive analysis of data from the World Values Survey and other global opinion surveys the book sheds new light on the value systems and opinions of Roman Catholics the authors highlight core problems and challenges the church is currently facing in adapting to the modern

world including catholic anti semitism religious and sexual tolerance and opinions towards democracy while also offering an anthropological reflection on how well the church is adapting or failing to adapt to the requirements of an open society

this book discusses the role played by powerful global institutions such as the imf the world bank the world trade organisation multinational corporations and the international credit rating agencies in keeping africa marginalised in the world economy the book focuses on the intrusive roles of these institutions as enablers and beneficiaries of capital outflows and financial subordination in africa diverging from the official narrative that touts china and the other emerging economies as global reformers that are poised to partner africa in its fight against financial subjugation the book instead argues that like the western powers the emerging economies are benefiting prodigiously from a rigged global financial system that keeps africa as a net creditor to the rest of the world the book draws its theoretical framework from the repressed heterodox theories including dependency core periphery world systems and marxist theories as well as the decolonial approach it concludes with a call for a decolonial african agency that should champion an epistemic rebellion against the neo liberal and neo classic economic traditions that have been historically deployed to justify africa s subordinated position in the global economic governance this book comes at moment in time when africa is ready to become a rule maker not a rule taker the analysis dr moyo presents having been in the front line of public policy and international negotiations demonstrate the need for africa to re write the rules to foster our own transformation jason rosario braganza executive director african forum and network on debt and development afrodad

how can new insights into evolution help us solve problems in life art business and science a wonderful mind expanding book prepare to be surprised enlightened and awed alice roberts author of ancestors in darwin s survival of the fittest each step must be uphill as life progresses towards an evolutionary peak there is no turning back so what happens when life needs to cross a valley in the wilds of an adaptive landscape to reach the highest summit world renowned biologist andreas wagner reveals that life does not only walk it also leaps drawing on pioneering research wagner explores life s creative process and how it bears a striking resemblance to how we humans work a beguiling symmetry links picasso struggling through forty versions of guernica and the way evolution transformed a dinosaur s claw into a condor s wing this new understanding is already revolutionising our approach to problem solving across the
