yoost and crawford s fundamentals of nursing is back for a second edition encore the text that made its name by focusing on simple language and active learning continues its focus on helping you truly understand apply and retain important nursing information and concepts using a warm and conversational style this new second edition guides you towards a basic understanding of

the nursing profession and then logically progresses through the nursing process and into the safe and systematic methods of applying care each chapter features realistic and complex case studies and critical thinking exercises woven throughout the content to help you continually apply what you've learned to actual patient care a conceptual care mapping approach created by Yoost and Crawford themselves further your ability to make clinical judgments and synthesize knowledge as you develop plans of care after analyzing and clustering related patient assessment data all of this paired with a wealth of student friendly learning features and clinically focused content offers up a fundamentally different and effective way for you to easily master the fundamentals of nursing unique warm friendly writing style slows down the pace of information to give readers time to critically think and master all fundamental concepts and skills unique building block approach groups topics and concepts together thematically in the order needed for readers to build their knowledge unique objective driven approach presents clearly defined numbered objectives that coordinate with all content and then wrap up with objective summaries unique active learning activities are incorporated throughout every chapter to help readers learn to apply chapter content to broader nursing concepts and realistic patient scenarios unique conceptual care mapping is taught and used throughout the text in conjunction with the conceptual care map creator unique emphasis on QSEN reinforces the quality and safety education for nurses competencies including patient centered care teamwork and collaboration evidence based practice quality improvement safety and informatics special feature boxes cover the areas of diversity consideration evidence based practice informatics patient education healthy literacy health assessment questions interprofessional collaboration and delegation ethical and legal practice home care considerations safe practice alerts QSEN critical thinking exercises and nursing care guidelines new interprofessional collaboration and delegation content appears throughout the text along with new IPE activities that are integrated into the evolve resources new unique review and exam questions tied to learning objectives use a building block style approach that starts at lower Bloom's taxonomy levels in early chapters and builds to more complex levels as readers acquire more knowledge new emphasis on assignment and delegation covers the differences between them and how and when they're appropriate for an RN new

content on complementary therapies has been integrated throughout the text to reflect the changes to the nclex exam new additional information has been added in the areas of hcaphs health literacy patient education drugs of abuse zika ebola and more

the importance of critical thinking has surged as academics in higher education realize that many students upon entering college lack the critical thinking skills necessary to succeed while much has been written regarding the lack of critical thinking less has been written on the success of methods implemented to develop this fundamental skill the handbook of research on advancing critical thinking in higher education explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies due to the difficulties associated with teaching critical thinking skills to learners of any age this publication is a crucial addition to the scholarly reference works available to pre service and early career teachers seasoned educational professionals professors across disciplines curriculum specialists and educational administrators

globalization has shifted perspectives on individualism and identity as cultural exchange occurs more rapidly in an age of heightened connectivity as technology connects those around the world it too helps to provoke a shift in the autonomy of individuals the handbook of research on individualism and identity in the globalized digital age is an essential resource for researchers professionals and graduate level students this book explores and explains how globalization has impacted humans with specific emphasis on education and human development this research based publication presents critical perspectives on universal changes that are occurring due to globalization

scholars consider sound and its concepts taking as their premise the idea that popular culture can be analyzed in an innovative way through sound the wide ranging texts in this book take as their premise the idea that sound is a subject through which popular culture can be analyzed in an innovative way from an infant s gurgles over a baby monitor to the roar of the crowd in a stadium to the sub bass frequencies produced by sound systems in the disco era sound not

necessarily aestheticized as music is inextricably part of the many domains of popular culture expanding the view taken by many scholars of cultural studies the contributors consider cultural practices concerning sound not merely as semiotic or signifying processes but as material physical perceptual and sensory processes that integrate a multitude of cultural traditions and forms of knowledge the chapters discuss conceptual issues as well as terminologies and research methods analyze historical and contemporary case studies of listening in various sound cultures and consider the ways contemporary practices of sound generation are applied in the diverse fields in which sounds are produced mastered distorted processed or enhanced the chapters are not only about sound they offer a study through sound echoes from the past resonances of the present and the contradictions and discontinuities that suggest the future contributors karin bijsterveld susanne binas preisendörfer carolyn birdsall jochen bonz michael bull thomas burkhalter mark j butler diedrich diedrichsen veit erlmann franco fabbri golo föllmer marta garcía quiñones mark grimshaw rolf großmann maria hanáek thomas hecken anahid kassabian carla j maier andrea mihm bodo mrozek carlo nardi jens gerrit papenburg thomas schopp holger schulze toby seay jacob smith paul théberge peter wicke simon zagorski thomas
