the purpose of this study is to show that the formal definition of the spiritual motherhood of mary would constitute a doctrinal development from vatican ii's teaching on

mary it is my strong view that marys spiritual motherhood should be explicitly acknowledged accepted and stamped with the extra ordinary infallibility of the church magisterium so that it would become a dogma of the church as the sensus fidelium such formal definition would give the doctrine the seal of juridical authenticity and prevent it from denigration and rejection in future this study argues that the catholic church needs to advance forwards from the marian teaching of vatican ii by making concerted efforts to maintain the marian trajectory in the church also portrayed are the efforts of the papal magisterium and some noted catholic theologians that have gone back to the sources of the early fathers of the church in order to teach that marys spiritual motherhood has solid foundation on scripture and the churchs tradition the post conciliar teachings of the above stated papal magisterium and contemporary theologians have the aim to nurture and sustain the faith and understanding of the people of god about marys spiritual motherhood the study also examines evidence to show that there is much in the catholic marian theology that could improve understanding among christians of different denominations in particular it portrays the fact that mariology always points to christ being indissolubly linked with christology and also has intrinsic unity with ecclesiology

the oxford handbook of mary offers an interdisciplinary guide to marian studies including chapters on textual literary and media analysis theology church history art history studies on devotion in a variety of forms cultural history folk tradition gender analysis apparitions and apocalypticism featuring contributions from a distinguished group of international scholars the handbook looks at both eastern and western perspectives and attempts to correct imbalance in previous books on mary towards the west the volume also considers mary in islam and pilgrimages shared by christian muslim and jewish adherents while mary can be a source of theological disagreement this authoritative collection shows mary s rich potential for inter faith and inter denominational dialogue and shared experience it covers a diverse number of topics that show how mary and mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion newly commissioned essays describe some of the central ideas of christian marian thought while also challenging popularly held notions this invaluable reference for students and scholars illustrates the current state of play in marian studies as it is done across the world

have you ever wondered about mary jesus mother is she important beyond having given birth to christ is there more to her relationship to jesus than simply being his biological mother if you have wondered what mary is all about then you will be interested in what this book has to tell you about her it is a theological and scriptural reflection on mary as we find her in the biblical record and will help the protestant reader understand mary in her relation to christ according to the ancient wisdom and profound richness of the catholic tradition about mary the mother of god

no catholic denies that our lord jesus christ is the only mediator through whose merits we became reconciled to god nevertheless it is a doctrine of our faith that god willingly grants us grace if the saints and especially the blessed virgin mary the queen of saints intercede for us if the saints during their life on earth were so potent with god that through their prayers the blind obtained sight the deaf hearing and the dumb speech that the sick of all conditions were healed the dead restored to life and the most obstinate sinners converted if thousands of other miracles in the order of nature and of grace were performed through their intercession what then will not she obtain for us from god whose virtue and merits transcend those of all the saints and who did more for the greater honor and glory of god than they all mary is the queen of saints not only because she is the mother of the most high but also because her sanctity is more perfect than theirs and she therefore thrones above them all in heaven hence the favor with which god regards her and consequently the power of her intercession with him is so much the greater

are we too comfortable with traditional forms of worship are these forms truly historical or are they man made distortions of god s prescribed ecclesial order do our accepted methods work against the functioning of the local church in its mission to evangelize and disciple rather than enhance it join dr robert e webber in this compilation of previously published articles and uncollected addresses as he discusses with characteristic humor and candor the diverse aspects of ancient and contemporary worship practices from the church in its infancy to the advent of the contemporary megachurch movement as in his many books including worship is a verb and worship old new webber explores the attitudes and liturgies through which we approach a loving god webber might infuriate or delight or both but he always stimulates

why are philosophers as opposed to say linguists and psychologists puzzled by language how should we attempt to shed philosophical light on the phenomenon of language how to understand language frames its discussion by these two questions the book begins by thinking about the reasons that language is hard to understand from a philosophical point of view and armed with the fruits of that discussion begins searching for an approach to these questions after finding fault with approaches based on philosophical analysis and on translation it undertakes an extended investigation of the programme of constructing a theory of meaning donald davidson s

advocacy of that approach becomes pivotal though the book endorses his broad approach it argues strongly against the roles both of truth theory and of radical interpretation

this catechism is divided into three parts the first part treats of faith the second of morals the third of the means of grace in the first part our lord appears in his character of teacher in the second in his character of king and in the third in his character of high priest and since this catechism proposes as its primary object to answer the question for what purpose are we here upon earth thereby emphasizing and giving prominence to man s high calling and destiny it is especially suited to the present day when the pursuit of material interests self indulgence and pleasure engrosses the attention of so many this catechism is in fact nothing more nor less than an abstract of our lord s teaching and may be called a guide book for the christian on the road to heaven preface
