the second volume in this collection of the prime minister s oratory contains the post war speeches that stoked patriotic fire in the waning days of empire legendary politician and military strategist sir winston churchill was a master not only of the battlefield but of the page and the podium over the course of forty books and countless speeches broadcasts news items and more he addressed a country at war and at peace thrilling with victory but uneasy with its shifting role on the global stage in 1953 he was awarded the nobel prize for literature for his mastery of historical and biographical description as well as for brilliant oratory in defending exalted human values during his lifetime he enthralled readers and brought crowds roaring to their feet in the years since his death his masterful writing has inspired generations of eager history buffs from 1945 to 1951 churchill held fast to the political influence he had gained during world war ii serving as leader of the opposition the minority party in the english government while some saw this new position as a demotion for a once great political

leader he embraced the moment with all his might addressing a nation triumphant in victory but increasingly aware that its long history of imperial domination was coming to an end even at this moment of relative calm in his career churchill's rousing oratory still shines with brilliance and wit

the division of europe between east and west born during world war ii not only denied independence to more than 100 million east europeans but upset the balance of global power putting stalin in a position to threaten western europe and planting the seeds of the cold war and the arms race this book probes the questions and facts surrounding the division of europe and offers new insight into how it might have been prevented looking beyond the conventional assumption that stalin simply took over eastern europe in the postwar years remi nadeau demonstrates how the soviet leader having gained power in eastern europe through red army occupation was unrestrained by any prior allied agreements the sovietization of eastern europe which is commonly believed to have occurred in the immediate postwar years actually came about during the war as the allies failed to limit stalin nadeau shows how the british who recognized the soviet threat repeatedly tried to block it and how roosevelt with a different foreign policy approach did not support them but as the author states in his preface this is not a story of american wrongdoing but of american innocence well researched and thorough in its arguments this book demonstrates how roosevelt's failure to throw u s strength into the political balance was not confined to the yalta conference in 1945 but was a consistent u s policy in east west encounters throughout the war nadeau shows that roosevelt did not understand stalin's intentions and repeatedly failed to support churchill's attempts to block stalin with diplomatic bargaining and military preemption written in a highly readable style and full of little known historical detail this book will appeal to any student of world war ii eastern europe or european history

selection from contemporary speeches and writings on british foreign policy in relation to europe

in this collection senior scholars explore the transition from war to uneasy peace how and why the war ended as it did whether a different resolution was possible and if the ensuing cold war was inevitable

churchill's legacy describes how churchill wielded his influence in post war politics to enable the restoration of europe through two key speeches in 1946 having first helped bring victory to the allies in 1945 churchill went on to preserve the freedom of the world by gaining the support of the united states in the

restoration of europe in fulton missouri churchill alerted america to the reality of uncle joe a tyrant determined to dominate europe at any cost churchill called for an anglo american alliance based on their shared values and the deterrent of america s possession of the atomic bomb churchill also urged the americans to recognise the debt they owed britain for opposing hitler in 1940 in doing so he contributed to the us thinking behind the need for the marshall plan in zurich churchill boldly proposed a partnership between france and germany a united states of europe the hatred stirred up by the war had to be replaced by partnership for europe to recover its economic vitality and regain its moral stature together the anglo american alliance and a united states of europe led by france and germany would have the power to smite the crocodile of soviet ambition to understand what churchill intended with these two speeches requires perspective the daring of his imagination and the scale of his architecture for a new western alliance was extraordinary at the time not many recognized the symmetry of what was proposed at churchill s funeral in 1965 commentators bemoaned the end of an era in truth churchill was the catalyst of a new era one built upon effective defence economic revival and european unity his speeches have been added to unesco s international memory of the world register
