read respond this morning i met a whale provides teachers with a wealth of resources to teach this morning i met a whale by michael morpurgo notes and activities reflect the way that teachers teach now and include shared texts guided reading notes reading activities speaking and listening activities writing projects and assessment guidance this morning i met a whale tells an enchanting tale about a whale and the message he gives to a young boy

from the author of the girl who stole an elephant comes another brilliant escapade a thrilling adventure set in fictional sri lanka jam packed with peril and kidnap and a huge blue whale razi a local fisherboy is watching turtle eggs hatch when he sees a boat bobbing into view with a chill he notices a small still hand hanging over the side inside is zheng who s escaped a shipwreck and is full of tales of sea monsters and missing treasure but the villains who are after zheng are soon after razi and his sister shifa too and so begins an exhilarating adventure in the shadow of the biggest sea monster of them all

a new york times notable book of 2020 in this superbly articulate cri de coeur safina gives us a new way of looking at the natural world that is radically different the washington post new york times bestselling author carl safina brings readers close to three non human cultures what they do why they do it and how life is for them a new york times notable books of 2020 some believe that culture is strictly a human phenomenon but this book reveals cultures of other than human beings in some of earth s remaining wild places it shows how if you re a sperm whale a scarlet macaw or a chimpanzee you too come to understand yourself as an individual within a particular community that does things in specific ways that has traditions alongside genes culture is a second form of inheritance passed through generations as pools of learned knowledge as situations change social learning culture allows behaviors to adjust much faster than genes can adapt becoming wild brings readers into intimate proximity with various nonhuman individuals in their free living communities it presents a revelatory

account of how animals function beyond our usual view safina shows that for non humans and humans alike culture comprises the answers to the question how do we live here it unites individuals within a group identity but cultural groups often seek to avoid or even be hostile toward other factions by showing that this is true across species safina illuminates why human cultural tensions remain maddeningly intractable despite the arbitrariness of many of our differences becoming wild takes readers behind the curtain of life on earth to witness from a new vantage point the most world saving of perceptions how we are all connected

from new york times bestselling author carl safina comes learning to be wild a young readers adaptation of the notable book becoming wild that explores community culture and belonging through the lives of chimpanzees macaws and sperm whales what do chimpanzees macaws and whales all have in common some believe that culture is strictly a human phenomenon but that's not true culture is passed down from parent to child in all sorts of animal communities it is the common ground that three very different animals chimpanzees macaws and whales share discover through the lives of chimpanzees in uganda scarlet macaws in peru and sperm whales in the caribbean how they and we are all connected in this wonderous journey around the globe

in this era of proliferation of synthetic growth hormone in the marketplace there is a parallel and accentuated interest in growth hormone in the scientific arena because many more people can be treated with available growth hormone clinicians must be prepared to answer hard questions regarding appropriate therapeutic usage and their decisions should be based on substantiated research in growth hormone in june 1987 an international group of basic and clinical investigators gathered in tampa florida to address these issues and to further explore the very nature of growth hormone the presentations contained within this book bring together their most current and vital research related to growth hormone section i deals with an examination of the molecular and biochemical events which define the growth hormone process in section ii the

neuroregulation of growth hormone secretion is highlighted from contrasting perspectives the third section emphasizes and defines methods of diagnosis of growth hormone deficiency states section iv reviews the physiology biochemistry and molecular actions of growth hormone and somatomedin section v represents an assessment of growth hormone treatment for various disorders and the sixth section expands current uses of growth hormone therapy as it evolves into the next decade the symposium upon which this book is based proved to be a dynamic blending of scholarly interaction between basic and clinical scientists i am indebted to the participants whose worthy contributions are reflected in these pages
