heatherwick is a leonardo da vinci of our times sir terence conran still just two decades into his career british designer thomas heatherwick has been heralded as one of the most original creative talents for many decades he has produced everything from sculptural chairs forged from the world s largest aluminium extruder to a bridge that rolls open and closed and an exuberant seed bank hairy with fibre optic lights the award winning uk pavilion at the 2010 shanghai expo this book is the first to present an exhaustive survey of his studio s output to date over 140 projects long in development it offers a highly personal in depth and behind the scenes look at all aspects of heatherwick s creative design and manufacturing processes projects are organized chronologically and bookended by an introduction setting out the studio s philosophy and a project credits section each project is fully illustrated and accompanied by a text explaining in heatherwick s own words the particular design challenge it posed and the creative and practical processes used to address it

comprehensive survey of the work of a distinguished british architect

this book brings together cutting edge research from leading international scholars to explore the geographies of making and craft it traces the geographies of making practices from the body to the workshop and studio to the wider socio cultural economic political institutional and historical contexts in doing so it considers how these geographies of making are in and of themselves part of the making of geographies as such contributions examine how making bodies and their intersections with matter come to shape subjects create communities evolve knowledge and make worlds this book offers a forum to consider future directions for the field of geographies of making craft and creativity it will be of great interest to creative and cultural geographers as well as those studying the arts culture and sociology

creative thinking made easy being creative can be tough and trying to come up with great ideas under pressure can leave the great ideas under wraps creative thinking for dummies helps you apply creative thinking techniques to everything you touch whether it s that novel you have inside you or the new business idea you ve had that will make you the next hot entrepreneur or anything in between creative thinking for dummies is a practical hands on guide packed with techniques and examples of different ways to think creatively it covers a range of techniques including brainstorming lateral thinking mind mapping synectics drawing and doodling your way to great ideas meditation and visualization word and language games and divergent thinking see the world in a different way and realise that you are surrounded by creative inspiration brainstorm new ideas successfully and try out some lateral thinking exercises open your mind to a new way of thinking and nail down those great ideas discover creative thinking techniques using games words drawings and storytelling let creativity enhance all aspects of your life whether developing your personal skills becoming more professionally effective or using creative thinking techniques to help your children develop their creative minds you ll soon discover that everybody including you has a wealth of creative potential within you just need to tap into it

learning from failure in the design process shows you that design work builds on lessons learned from failures to help you relax your fear of making mistakes so that you re not paralyzed when faced with a task outside of your comfort zone working hands on with building materials such as concrete sheet metal and fabric you will understand behaviors processes methods of assembly and ways to evaluate your failures to achieve positive results through material and assembly strategies of stretching casting carving and stacking this book uncovers the issues problems and failures confronted in student material experiments and examines built projects that addressed these issues with innovative and intelligent strategies highlighting numerous professional

practice case studies with over 250 color images this book will be ideal for students interested in materials and methods and students of architecture in design studios

as a second attempt after *architecture beyond the anthropocene* already available online this book is presenting a new set of reflections in a time at a pivot point 62 young architects to be are facing their own future and roles in a world experiencing massive changes on all levels climatic economic political cultural social the confusions the wonderings the hopes and maybe above all the questions amass to navigate in this unknown and volatile territory a series of speculating lectures on architectures varying foundations and possible creative paths were offered along with a list of books presented at the end of this book

each seat mirror polished aluminium made without fixtures or fittings has been produced by the world s largest extrusion machine haunch of venison

this book argues for the value of the material prototype as a critical site of design innovation through a series of design and architectural case studies illustrated by physical objects such as chairs columns and building façades these full scale material investigations reflect their designers deep knowledge of material manufacturing and geometry the projects do not simply express how they are made rather their designers leverage the capacities of metal forming to exert distinctive influence on the object s expression and performance embracing manufacturing processes as instruments of material innovation organized in two parts part one presents the material framework informing work by arad newson heatherwick future systems foster oma rex hadid and others seven metal forming techniques including press forming press brake forming spinning panel beating casting extruding and superplastic forming are presented alongside work implemented with these processes part two presents original design research thermoformed aluminum façade systems ask critical questions of the part tessellation the mold tooling the seam and the finish post processing illustrating the potential of design inquiry when techniques of material production alter techniques of design aluminum is redefined inheriting a plasticity which alters the intrinsic qualities of its raw production for students and professionals in the fields of industrial design and architecture this book presents an optimistic role for material in the design process

a compelling account of how incorporating play into work can help us overcome the uncertainty and turbulence that surrounds work how can we learn to deal with uncertainty at work the answer as dodgson and gann eloquently portray in this pathfinding book is to learn from the adaptive

behaviors of entrepreneurs play the authors show is a crucial component of this it encourages exploration experimentation and curiosity while it also challenges established practices and orthodoxies it facilitates change in people and organizations drawing on in depth interviews with entrepreneurs and innovators this book explains why we should incorporate play into work what play looks like and how to encourage playfulness in individuals and organizations dodgson and gann identify four key behaviors that endorse encourage and guide play grace craft fortitude and ambition and provide a blueprint for an alternative way of working that fosters resilience and encourages innovation and growth in difficult times

published to coincide with a major exhibition at the v a here is the first comprehensive monograph on one of the world s most innovative designers of three dimensional objects still just two decades into his career british designer thomas heatherwick has been heralded as one of the most original creative talents for many years he has produced everything from sculptural chairs forged from the world s largest aluminium extruder to a bridge that rolls open and closed and an exuberant seed bank hairy with fibre optic lights this book is the first to present an exhaustive survey of his studio s output to date over 140 projects long in development it has been prepared in close collaboration with heatherwick himself offering a highly personal in depth and behind the scenes look at all aspects of heatherwick s creative design and manufacturing processes

from one of the world s most innovative designers comes a fiercely passionate manifesto on why so many places have become miserable and boring and how we can make them better for everyone featuring hundreds of photographs and illustrations that will change how you see the world around you we are living through a global catastrophe buildings affect how we feel moment by moment day by day they have the power to lift us up and make us feel awestruck playful safe and inspired just as they can make us feel alienated and sad but many of the places where we live work learn and heal have become monotonous and disposable we re surrounded by cheap boring buildings that make people stressed sick and unhappy in short much of our world has been crafted in a way that is hostile to human experience now drawing on his experience of the last thirty years in making bold beautiful objects and buildings thomas heatherwick offers both an informed critique of the inhumanity in most of today s contemporary building design and a rousing call for action looking through heatherwick s eyes we see familiar landmarks and cityscapes around the world from london paris barcelona singapore new york vancouver and beyond both old and new famous and obscure to learn how places can either sap the life out of us or nourish our senses and our psyche the time has come

he says to put emotion back at the heart of the design process and the reasons to do so could not be more urgent design is not superficial it has an impact upon economics climate change our mental and physical wellbeing even the peace and cohesion of our societies as citizens and users we need a world full of architectural diversity that delights and unites us and as makers and designers we can help create a world where cities reconnect with their essential mission to provide human spaces where people mix meet inspire each other and live out their full potential elegantly crafted by heatherwick s own studio and fully illustrated with hundreds of black and white photos humanize is an urgent call to arms for making our world a better place for everyone to live and provides the vision and tools for us to make it a reality

creative island explores the extraordinary range and quality of recent british design including work from all disciplines it describes over 100 projects from the last few years and includes biographical details of each of the project designers

the past decade of both economic crises in europe and north america as well as an extraordinary museum boom in many asian countries has led to new questions and concepts for future museum buildings new museums intentions expectations challenges investi gates this paradigm change by presenting 20 recent and future museum projects on all continents among the projects discussed are the smithsonian s national museum of african american history and culture in washington d c by adjaye associates the guggenh eim helsinki by moreau kusunoki architects china s comic and animation museum in hangzhou by mvrdiv the munchmuseet in oslo by estudio herreros the zeitz museum of contemporary art africa in cape town by heatherwick studio the long museum west bund in shanghai by atelier deshaus and the extension of the art gallery of new south wales in sydney by sanaa critical texts by leading museum and architecture writers suzanne macleod chris dercon karen van den berg wolfgang ullrich kali tzortzi and anke gröner shed light on the relation of new museum trends and state of the art architecture
