remains a second class citizen in academia relegated to a position of low below a culture deemed high and worthy of scholarly inquiry this eclectic collection of essays aims to convince that this inequality must be addressed by exploring a variety of supposedly low cultural types and texts through an academic lens proving that so called low culture can be a valuable contribution to academic research that said raising the low does not mean making it high turning it into an elite category to be accessed only by experts rather the authors are unswerving in their approach that academic writing and fan writing are not mutually exclusive on the contrary it is their knowledge and passion as fans of their subject matter that has inspired their chapters all of which draw upon their considerable experience of engaging as fans in what they discuss all the chapters have been written by postgraduate students seeking to inspire a new empiricism through which their interests might be fully pursued in their futures as scholars emma buchanan is a british postgraduate researcher and television fan who is currently writing up her phd thesis on the topic of gender and change in amc s the walking dead as understood from the point of view of jungian depth psychology

although writers on film music frequently allude to specific parts of scores comprehensive examinations of entire scores are rare in addition most analyses of scores composed for the screen are discussed outside their cinematic context to best understand the role music plays in the production of a motion picture however it benefits the viewer to consider all of the elements that comprise the film experience in the synergy of film and music sight and sound in five hollywood films peter rothbart considers the aural and visual aspects of five representative films west side story psycho empire of the sun altered states and american beauty for each film the author demonstrates how a variety of elements work together to create a singular experience after reviewing the various roles that music can serve in a film as well as providing an overview of the film scoring process rothbart looks at each film examining them one musical cue at a time so the reader can watch the film while reading about each cue in these analyses timecode markings from commercial dvds are provided in the margins alongside the text which allow the reader to correlate the on screen drama to the second rothbart explains how music is used in a specific cue and why the decision was made to use that particular musical idea at that moment consequently film music aficionados as well as students and composers of film music can gain real world perspective of how music is used in conjunction with other elements in this way the author raises awareness of music s relationship to virtually every other aspect of cinema dialogue sound effects costuming set design and cinematography to deepen the viewer s experience written in a deliberately nontechnical way this book is intended for anyone interested in film to easily follow along at the same time the information can benefit professional filmmakers or composers because they can see with great detail how each cue unfolds along with all of the visual elements of the film this unique analysis makes the synergy of film and music a fascinating and instructive volume that both casual viewers and students of cinema will appreciate
