a psychologically nuanced tough minded portrait of the new york filmmaker and his relationships with mia farrow and soon yi previn publishers weekly writer director actor humorist woody allen stands as one of our era s most celebrated artists starting in the 1950s allen began crafting a larger than life neurotic persona that has since entertained and enlightened millions in his films widely thought to be autobiographical explorations of his own comic fears and fixations allen carefully controlled the public s view of him as a lovable scamp but that all came crashing down the day mia farrow found a polaroid on her mantle what followed was a flurry of sensational headlines and legal battles his relationship with soon yi previn thirty four years his junior and the step daughter of his longtime girlfriend caused shockwaves in the public s perception of the director yet few biographers and journalists have explored what happened and why in this the first deep investigation of allen s life and the events surrounding his split with farrow biographer marion meade tracks down dozens of friends actors neighbors and film historians they open up with insights and details rare in the world of wealth and celebrity what results is a fascinating portrait of a flawed genius as adept at constructing his own image as he is at crafting films rereleased and updated this is an unauthorized biography that neither woody allen s fans nor his detractors will be able to put down the revised and updated edition was reviewed in the wall street journal in 2013 by carl rollyson in a roundup of the five best hollywood biographies

woody allen is one of america s most prolific authors actors and auteur film directors his oeuvre which spans five decades has always been marked by a postmodern play with conventions experimental techniques and explorations of the status quo of modern urban lives yet woody allen is also a nostalgic who makes the history of his nation his people and his individual subjects the constant theme of his work whether cryogenically frozen miles monroe wakes up in the future only to misinform scientists about the past whether stand up comedian alvy singer reminisces his relationship to annie hall or whether ophtalmologist judah rosenthal is tormented by his memory of his jewish rabbinical father after having had his girlfriend killed the past whether personal or communal is always an integral part of allen s characterizations and plots contrary to the assumption that postmodernity is necessarily linked to the future only and negates all history the present study argues that postmodern subjects very much depend on an active evaluation of the past and that through the lens of history present crises and traumata can be overcome in this way nostalgia manages to bring history back into postmodernism
