designed to meet the needs of the two year theory curriculum for music majors this straightforward market leading text emphasizes

practicality and ease of use for both the student and the instructor its outstanding ancillaries which include a collection of audio examples on cd for both the text and workbook finale workbook software and an extensive instructor s manual round out the comprehensive teaching package

designed to meet the needs of the two year theory curriculum for music majors this straightforward market leading text emphasizes practicality and ease of use for both the student and the instructor its outstanding ancillaries which include a collection of audio examples on cd for both the text and workbook finale workbook software and an extensive instructor s manual round out the comprehensive teaching package

a revision of the classic 1964 edition exploring counterpoint techniques beyond the stylistic base of the baroque tradition this practical 194 page book contains a glossary of terms a bibliography for further study and a subject index there is also an index of musical examples and the included cds contain recordings of musical examples from the text includes perforated exercise pages for students

this single volume covers all the topics typically taught in a two year music theory course in addition to numerous self tests and examples musical illustrations with commentaries coverage of late 19th and 20th century developments and a companion workbook this updated edition includes a cassette with many of the text s musical examples new exercises summaries and self tests and an expanded supplements package a study guide 0 07 034882 6 and an enhanced instructor s manual 0 07 035881 8 with a chapter quiz and answers to workbook exercises are also available

vols for 1898 1968 include a directory of publishers

this text provides the most comprehensive analytical approach to post tonal music available from impressionism to recent trends it covers music from the early 1900s through the present day with discussion of such movements as minimalism and the neoromanticism and includes chapters on rhythm form electronic and computer music and the roles of chance and choice in post tonal music chapter end exercises involve drills analysis composition as well as several listening assignments

each set of exercises in the workbook is closely correlated with the corresponding chapter of the text and with a particular self test within the chapter each set of workbook exercises begins with problems similar to those found in the corresponding self test but the workbook exercises also include problems that are too open ended for the self test format as well as more creative types of compositional problems for those instructors who like to include this type of work

unlike most other books on the subject this survey of twentieth century music is organized according to compositional methods and analytical techniques rather than historical movements this text can be used on its own or it can complement a historical survey by giving the student hands on compositional and analytical experience with a great variety of twentieth century styles back cover
