instill a strong early multiplication understanding in a simple yet effective way multiplication flash cards is a beautiful child flash card book to instill a strong understanding of early math skills in children these 0 to 12 child flash cards are designed in a way that help kids memorize 0 to 12 multiplication in a simple and fun way on the flip side of every page kids can also refer to the correct answers there is a total of 144 flashcards four on each page parents or teachers can even cut these flashcards each page will turn into four flip cards these child flash cards help kids from kindergarten to fifth understand early math in an easy and fun way just click the buy button towards the top of this page

designed to help school age children master basic multiplication facts instructions and activities included

give students in grades 3 5 step by step strategies to achieve success using mastering math facts multiplication and division this 128 page book provides mathematical spatial and kinesthetic strategies that are perfect for various learning styles and ability levels it supports nctm standards and includes reproducibles and hands on activities for individual and whole group instruction

includes ideas for games and activities to better your child s multiplication skills

make math matter to students in grades 3 4 using multiplication facts tips and tricks this 64 page book offers skip counting activities skill building practice pages pretest and posttest assessments and easy to play group and partner games that help students memorize and master multiplication facts through the 10s family the activities support nctm standards

these 288 multiplication flash cards are bound together in a book one advantage of this is that none of the flash cards will get lost or misplaced and you'll never have a mess of flash cards scattered throughout the house you can take them with you anywhere and they will always stay bound together in this book half of the flash cards those appearing on the odd numbered pages 5 7 9 etc appear in order while the other half those appearing on the even numbered pages 6 8 10 etc are shuffled the ordered flash cards are useful for memorizing one complete set of facts such as the 7s at a time the shuffled flash cards are used to test your memory there are 3 flashcards on each page all 144 multiplication facts from  $1 \times 1$  thru  $12 \times 12$  are included twice once ordered once shuffled they work like ordinary flash cards you look at the 3 problems on one page and find the answers on the other side of the page hold the book with the front cover facing you and read the book forward when studying the ordered multiplication facts hold the book with the back cover facing you and read the book backward i.e. read page 100 first then 98 then 96 etc to test your memory with the shuffled multiplication facts it's a good idea to skip around sometimes when working with the shuffled multiplication facts so you learn the facts instead of memorizing the order of the answers the answers from the two sides of a page coincide in position and the book is printed on 60 white paper so that you can't read through the page to see the answers instead you turn the page to check the answers

educational resource for teachers parents and kids

help your child unlock their math potential with this intuitive guide to teaching new math teaching your kids new math k 5 for dummies makes it easy to understand the new math being taught to students in kindergarten to grade 5 showing parents and guardians how to help their kids with the new methods and concepts that have been introduced since they finished school you'll discover the math teaching basics you need to help your kids
