a collection of thirteen lectures all given near the end of joseph campbell s life that examine the great sweep of mythological development around the world and across the ages

hercules zeus thor gilgamesh these are the figures that leap to mind when we think of myth but to david leeming myths are more than stories of deities and

fantastic beings from non christian cultures myth is at once the most particular and the most universal feature of civilization representing common concerns that each society voices in its own idiom whether an egyptian story of creation or the big bang theory of modern physics myth is metaphor mirroring our deepest sense of ourselves in relation to existence itself now in the world of myth leeming provides a sweeping anthology of myths ranging from ancient egypt and greece to the polynesian islands and modern science we read stories of great floods from the ancient babylonians hebrews chinese and mayans tales of apocalypse from india the norse christianity and modern science myths of the mother goddess from native american hopi culture and james lovelock s gaia leeming has culled myths from aztec greek african australian aboriginal japanese moslem hittite celtic chinese and persian cultures offering one of the most wide ranging collections of what he calls the collective dreams of humanity more important he has organized these myths according to a number of themes comparing and contrasting how various societies have addressed similar concerns or have told similar stories in the section on dying gods for example both odin and jesus sacrifice themselves to renew the world each dying on a tree such traditions he proposes may have their roots in societies of the distant past which would ritually sacrifice their kings to renew the tribe in the world of myth david leeming takes us on a journey not through a maze of falsehood but through a marvellous world of metaphor metaphor for the story of the relationship between the known and the unknown both around us and within us fantastic tragic bizarre sometimes funny the myths he presents speak of the most fundamental human experience a part of what joseph campbell called the wonderful song of the soul s high adventure

an in depth look into the foundations of mysticism and alchemy this book describes both physical and spiritual aspects of the various theories and practices of transformation with attention to the beliefs of buddhism christianity hinduism islam judaism sufism tantrism taoism and yoga the connection between early mystical pursuits and the development of alchemy from ancient china india and egypt through moorish spain and into latin europe are illuminated along with the activities of early alchemists the book which is heavily illustrated describes the beliefs experiments and secret messages that drew the believers and dreamers of the world together in search of wealth and immortality

alien life and human purpose a rhetorical examination through history provides a rhetorical examination of the way major historical figures connect their arguments for the absence of alien life or unity to their philosophical religious and ethical agendas although the unity myth has often existed in the background of society shaping institutions and values during periods where

relativism gained prominence its opponents actively wielded the unity myth as a response plato used the unity myth against the sophists anglican theologian and philosopher william whewell against the utilitarians co discoverer of evolution alfred russell wallace against the social darwinists university professors frank j tipler and john d barrow against the postmodernists etc these individuals presented scientific defenses of unity and then used the fact of unity to claim the universe is teleological knowable and ordered rather than chaotic and relativistic this book argues that unity and its complimentary mythic function have played an important role in shaping values throughout history and more importantly continue to do so today

quantum mythology how physics shapes our myths and legends explores the intriguing connections between quantum mechanics and ancient myths suggesting that many legends may have been early interpretations of phenomena now understood through quantum principles bridging the gap between science and mythology the driving idea behind the book quantum mythology how physics shapes our myths and legends is to explore the intricate interplay between mythology and quantum theory the book aims to demonstrate how ancient wisdom and modern quantum concepts are interconnected presenting a narrative that intertwines human imagination with the realities of quantum mechanics by examining phenomena such as wave particle duality entanglement and superposition through the lens of mythology and mysticism the book seeks to offer a profound understanding of how physics shapes our myths and legends and to reframe our perception of nature and reality key takeaways the concept of quantum mythology integrates ancient myths with quantum mechanics to reveal fundamental truths about existence quantum mechanics phenomena such as superposition entanglement and wave particle duality mirror themes found in global mythologies ancient myths often depicted cosmic creation interconnectedness and non locality which resonate with modern quantum theories the interdisciplinary approach fosters a holistic understanding of reality blending empirical science with symbolic mythological interpretations the integration of quantum principles with mythology prompts a reevaluation of time space consciousness and reality itself this synthesis has practical implications for technology such as quantum computing and communication as well as cultural and ethical considerations preserving and revitalizing ancient myths through the lens of quantum mechanics can promote cultural appreciation and global unity

1 now mankind is fighting against the corona virus everyday a lot of people are dying dead and suffering by the corona virus circulating the world heavier suffering and burden are given to the economical weak this is a very serious problem to be solved soon however it is only a small tip of big problem we are

facing today the more serious and hard to solve problem like gordian knot is the environmental problems of earth revealing the symptoms such as the marine pollution destruction of forest desertification climatic change and so on accelerated by the financial capitalism and tribal egoism as philosopher nietzsche said mankind becomes the disease of earth at this rate homo sapiens will disappear before the great flower of earth democracy begins to bloom this terrible result is the product of ego centric small reason dichotomous reason namely instrumental reason such selfish exclusive reason constructs the vertical system of knowledge vertical relationship of possession and vertical ruling relationship at any cost we can not avoid greed opposition deception distrust conflict violence and war it is because the self is the genius of the lie and deception so confabulates endlessly to justify and rationalize himself or herself in order to maximize his or her benefits and pleasures we can not avoid the conflict between two monadic selves conflict between two logoi conflict between two benefits and conflict between two justifications so we can make a long list of cases of tragic violences and wars caused by the political leaders who was just a greedy liar swindler intellectual dwarf and sly hypocrite however the direction and way for the collective intelligence are clear and distinct it is inevitable to solve the pains of mankind and all living bodies of earth 2 the collective intelligence of mankind has explored and tried to discover the ultimate truth and to actualize the democracy incessantly science and philosophy are the tracks of hard fighting of brave men in order to make the good world where the universal truth is alive in the justice and democracy the collective intelligence of mankind has achieved the incessant progress through the copernican changes in scientific truth science has escalated the status of human beings continuously in the universe all human beings are equal extremely precious and solemn being allowed to parody wittgenstein now it is time to keep silent about the affairs which are not coincident with the truth of science in order to keep the infinite value and dignity of human beings it is because the substantialization of false concepts allows all kinds of liars and swindlers to win the games pleasantly while justice keeps silent and human happy life and peace of earth are destroyed in the white screamings contemporary great philosopher deleuze overturns such false concepts decisively and opens new metaphysics and ethics based on the contemporary sciences deleuze s philosophy of multiplicity and event is very close to buddha s philosophy of dharma and middle way which is also very scientific and practical middle way is the ultimate truth and it is the single unique solution to solve the problem of earth ultimately it is time we need to pay attention seriously on deleuze and buddha if we wish to live in justice democracy freedom peace and happiness 3 this book compares the same points and different points with selected several keywords in the epistemology ontology and practical theory between deleuze and buddhism both will go forward together for the democracy peace and happiness of earth michel

foucault predicted that the 20th century will be considered as that of deleuze which will never be a joke or an exaggeration we can enter into the buddhism and come out of deleuze and vise versa
