transnational business problems third edition focuses on european union countries and other developing state economies and the principles and practices of international business it provides exercises in dealing with developing economies economies with currency problems with immature legal systems and with governments susceptible to corruption it introduces students to the subject of taxes as they relate to international business

contemporary debates about the changing nature of law engage theories of legal pluralism political economy social systems international relations or regime theory global constitutionalism and public international law such debates reveal a variety of emerging responses to distributional issues which arise beyond the western welfare state and new conceptions of private transnational authority however private international law tends to stand aloof claiming process based neutrality or the apolitical nature of private law technique and refusing to recognize frontiers beyond those of the nation state as a result the discipline is paradoxically ill equipped to deal with the most significant cross border legal difficulties from immigration to private financial regulation which might have been expected to fall within its remit contributing little to the governance of transnational non state power it is largely complicit in its unhampered expansion this is all the more a paradox given that the new thinking from other fields which seek to fill the void theories of legal pluralism peer networks transnational substantive rules privatized dispute resolution and regime collision have long been part of the daily fare of the conflict of laws the crucial issue now is whether private international law can or indeed should survive as a discipline this volume lays the foundations for a critical approach to private international law in the global era while the governance of global issues such as health climate and finance clearly implicates the law and particularly international law its private law dimension is generally invisible this book develops the idea that the liberal divide between public and private international law has enabled the unregulated expansion of transnational private power in these various fields it explores the potential of private international law to reassert a significant governance function in respect of new forms of authority beyond the state to do so it must shed a number of assumptions entrenched in the culture of the nation state but this will permit the discipline to expand its potential to confront major issues in global governance

the academy is an institution for the study and teaching of public and private international law and related subjects its purpose is to encourage a thorough and impartial

examination of the problems arising from international relations in the field of law the courses deal with the theoretical and practical aspects of the subject including legislation and case law all courses at the academy are in principle published in the language in which they were delivered in the collected courses of the hague academy of international law this volume contains international business transactions in united states courts by h h koh professor at yale university new haven citoyennete de l union europeenne nationalite et condition des etrangers par e perez vera professeur a l universidad nacional de educacion a distancia madrid to access the abstract texts for this volume please click here

this insightful book considers the phenomenon of the transformation of enforcement in european economic law while adopting a distinct global perspective the editors identify and respond to the need for reflection on transformation processes in the area of enforcement by bringing together the leading international and european scholars in a variety of disciplines to share and compare experiences and learning in different areas of law rooted in a wide and regulatory understanding of enforcement this book showcases the transformation of enforcement with reference to both european economic law especially transnational commercial law competition law intellectual property law consumer law and to the current context of significant global economic challenges comparative perspectives facilitate the formation of a holistic perspective on enforcement that reaches beyond distinct theoretical accounts political agendas regulatory systems institutional patterns particular remedies industry sectors and stakeholder perspectives as the first comprehensive and comparative analysis of the enforcement of european economic law that reaches beyond closely confined areas of law it constitutes a crucial contribution to the theoretical and policy questions of how to design a coherent european enforcement architecture in accordance with essential principles and objectives of the eu economic order this unique study will have broad appeal by exploring enforcement transformations from a legal and a cross disciplinary perspective it will be essential reading for scholars practitioners and policymakers from different disciplines
