williams explores the multiple narratives of cook s death in short
williams examines the story of cook s progress from obscurity to fame and eventually to infamy
a story that until now has never been fully told

cook's great voyages marked the end of an era in world history as he sailed into hawaii in january 1778 he made contact with the last of the human civilizations to grow up independently of the rest of the world but equally for the polynesians and melanesians of the pacific cook's arrival in their midst merely marked a further if disastrous twist in diverse histories already many centuries old in this immensely enjoyable and absorbing book cook's journeys are reimagined attempting to leave behind or master our later preoccupations to let us see what cook and his associates experienced and what the societies he encountered experienced from the beothuks of newfoundland to the tongans of the friendly islands

james cook the circumnavigator was a native of the district of cleveland yorkshire but of his ancestry there is now very little satisfactory information to be obtained nichols in his topographer and genealogist suggests that james cooke the celebrated mariner was probably of common origin with the stockton cookes his reason for the suggestion being that a branch of the family possessed a crayon portrait of some relation which was supposed to resemble the great discoverer he makes no explanation of the difference in spelling of the two names and admits that the sailor's family was said to come from scotland dr george young certainly the most reliable authority on cook's early years who published a life in 1836 went to whitby as vicar about 1805 and claims to have obtained much information about his subject through intercourse with his relatives friends and acquaintances including one or two surviving school companions and appears to be satisfied that cook was of scotch extraction dr george johnston a very careful writer states in his natural history of the eastern borders that in 1692 the father of james thomson the author of the seasons was minister of ednam roxburghshire and a man named john cook was one of the elders of the kirk this john cook married on the 19th january 1693 a woman named jean duncan by whom he had a son james baptised 4th march 1694 and this child johnston positively asserts was afterwards the father of the future captain cook the dates of the marriage and baptism have been verified by the reverend john burleigh minister of ednam and they agree with the probable date of the birth of cook's father for he died in 1778 at the age of eighty five owing to the loss of the church records for some years after 1698 mr burleigh is unable to trace when this james cook left ednam to better himself but he would take with him a testificate of church membership which might possibly but not probably still exist attracted perhaps by the number of scotch people who flocked into the north of yorkshire to follow the alum trade then at its height james cook settled down and married and the first positive information to be obtained is that he and his wife grace her maiden name has so far escaped identification though she is known to have been a native of cleveland resided for some time at morton in the parish of ormsby and here their eldest child john was born in january 1727 dr young says that james cook had a superstition that his mother's farewell was prophetic of his marriage for her words were god send you grace
