back cover the author considers these critical questions in the beginning before god created adam mankind what was his original purpose and plan for him what could have happened in the garden of eden if adam had not sinned and god s redemptive plan had not become necessary we know that when god created adam he received natural life but how did god plan for adam to receive divine uncreated life what is the difference between god s creating and begetting work it is evident that god has given the cross a central place in his redemptive working what is the difference between the work of the cross and the way of the cross since god in the fullness of time will put on display his divine masterpiece before all the universe how can we fully cooperate with him if we do not understand his ultimate intention

why do the nations rage why do the people waste their time with futile plans ps 2 1 we live in turbulent times and people are looking in every direction for answers this book is an effort by the author to put in print materials developed and used over a twenty five year career as a christian counselor it is the educational material without the interaction involved in face to face counseling the book examines the spiritual roots of a person s worldview and their impact on the decisions one has made over a lifetime it looks at the strategies a man has used to satisfy his deepest needs the book looks deeply into the soul of man by searching the mind and testing the truths a man believes and lives by it looks at man s emotional life and his struggles to master it and evaluates the intricate decision making

are you yearning for a drastic change in your church life are you tired of the status quo are you ready to abandon the traditional religious structures of culture in a postmodern christian landscape that is far too synthetic pretentious and trendy there exists a unique window of opportunity that has the potential to alter the present course of church history the question of the hour is how long will this window remain open and will it be taken advantage of as a true opportunity or will it just be added to the trash heap of so many former disappointing fads zeal for his house is a passionate and penetrating call to transcend all things institutional all of the cutting edge church trends are addressed along with a radical but practical alternative to the way church and ministry have been done for the past 1800 years zeal for his house seeks to present nothing short of what would lead to the satisfaction of the divine intention a church that is rooted in the timelessness of god s eternal purpose and in the centrality of jesus christ zeal for his house picks up where the reformation left off

after 22 years of prayer study ministry observation and seeking god s will through it all the burden in my heart to teach disciples and raise up church leaders who are grounded in solid foundational principles has escalated into a powerful fervor therefore my spirit has been compelled to put these principles into writing for the edification of the glory of the lord for his kingdom many of these things have been taught in various forms and or pieces it has been my longing to put this to an organized instructional tool that will firm up the believer s heart and mind and establish a solid foundation for disciples to build their calling upon thereby launching the disciple s ministry for the purpose of accomplishing god s will for their lives like a drop of water spilled into a pool and rippling outward it is my expectation that these teachings will ripple out into the world and change many lives dr robert doc straub was born in 1950 in bethesda maryland growing up as a us navy dependant he lived all around north america hawaii and the caribbean finally settling in the

in seth godin s most inspiring book he challenges readers to find the courage to treat their work as a form of art everyone knows that icarus s father made him wings and told him not to fly too close to the sun he ignored the warning and plunged to his doom the lesson play it safe listen to the experts it was the perfect propaganda for the industrial economy what boss wouldn t want employees to believe that obedience and conformity are the keys to success but we tend to forget that icarus was also warned not to fly too low because seawater would ruin the lift in his wings flying too low is even more dangerous than flying too high because it feels deceptively safe the safety zone has moved conformity no longer leads to comfort but the good news is that creativity is scarce and more valuable than ever so is choosing to do something unpredictable and brave make art being an artist isn t a genetic disposition or a specific talent it s an attitude we can all adopt it s a hunger to seize new ground make connections and work without a map if you do those things you re

an artist no matter what it says on your business card godin shows us how it s possible and convinces us why it s essential
