the basic theology of the unification movement and the essential teaching of reverend sun myung moon and dr hak ja han moon the divine principle reveals provocative new insight into god s principles of the created world the deeper nature of the fall the nature of salvation the mission of jesus and the second coming of christ

the unification church popularly known as the moonies has been viewed as an eccentric and somewhat sinister cult best known for the mass wedding ceremonies conducted by its leader sun myung moon in the advent of sun myung moon george chryssides remains critical of the

movement but brings the reader out of uninformed prejudice by presenting information about its korean origins its teachings and the many ceremonies which until recently remained undisclosed the book is based on extensive conversations with members and critics alike together with extended periods spent at uc seminars

a chronological overview of the reverend sun myung moon dr hak ja han moon and the unification church from its beginnings in war ravaged korea to its current global activities this photographic record recounts key events in this movement s history

in writing any account of someone else s religious beliefs and practices any author must find himself between two poles what members of the religion wish to tell and what the public wishes to know nowhere are these polarities more distant than in the field of new religions the public wishes to know about recruitment brainwashing and fundraising within the unification church while the authors discussion with uc members elicited far more material on their own inner spiritual life after consideration the author has concluded that a common meeting ground is simply not possible and that any book including this one has to be a compromise

inquisition is not just about the trial of sun myung moon it puts on trial our judicial system in the context of religious liberties christianity today

this book presents the first comprehensive study of the life and teachings of rev sun myung moon founder of the unification church through the lens of korean shamanism the nation s ancient spiritual tradition professor chong sun kim argues that moon s theology and charismatic authority derive not from christianity as is often asserted but from shamanistic beliefs and practices rooted in trance spiritual mediation intertwined with elements of witchcraft and divination and the invocation of miraculous power the work also traces the evolution of shamanism from prehistoric times through korea s cultural history illuminating how it profoundly shaped korean buddhism confucianism and modern new religious movements it situates moon s rise within the broader social and political context of modern korea a nation forged through colonial subjugation war dictatorship and the arduous path toward democratization first published in 1978 and now reissued in a new 2025 edition kim extends his analysis to global concerns about religious manipulation authoritarian politics and mass persuasion warning that the same mystical impulses that once animated ancient rituals continue to influence modern leaders and followers alike ultimately the book stands as both a penetrating scholarly critique of moon s movement and a profound reflection on how it exploited the anxieties of alienated modern masses while appealing to humanity s enduring search for meaning socio political consciousness and transcendence
