from the writer of the worlds fastest growing cardiology website thepad pm comes this fantastically illustrated explanation of how the heart works if you want to understand the human heart this book will help you do so in a very simple and friendly way written for patients trying to understand their hearts it is also ideal for students or healthcare professionals trying to build their knowledge for the first time love your explanations it demystifies all things cardiac in a way that helps explain it to patients reader experience of thepad pm

the woman he left behind it took serious injuries from a roadside bomb to bring war photographer drew michaels back to his estranged wife larissa his need for adventure had ultimately pushed larissa toward the warm embrace of the church and away from him but now being back in such close quarters with his first and only love was stirring up feelings of peace and comfort he d suppressed long ago yet his secrets could once again tear him away from the woman to whom he d uttered the words i do

a children s novel by the italian author edmondo de amicis who was a novelist journalist short story writer and poet the novel is his best known work to this day having been inspired by his own children furio and ugo who had been schoolboys at the time it is set during the italian unification and includes several patriotic themes it was issued by treves on october 18 1886 the first day of school in italy and rose to immediate success through its investigation of social issues such as poverty heart shows the influence of left wing ideologies on de amicis work he was later to join the italian socialist party because of this the book remained influential and the staple of many textbooks in countries of the eastern bloc on the other hand the book s strong evocation of italian nationalism and patriotism also made it very welcome in fascist italy he novel is written in a diary form as told by enrico bottini an 11 year old primary school student in turin with an upper class background who is surrounded by classmates of working class origin the entire chronological setting corresponds to the third grade season of 1881 82 enrico says it has been four years since the death of victor emmanuel ii king of italy and the succession by umberto i and also tells about the death of giuseppe garibaldi which happened in 1882 enrico s parents and older sister silvia interact with him as written in his diary as well as his teacher who assigns him with homework that deals with several different stories of children throughout the italian states who should be seen as role models these stories are then given in the book as enrico comes upon reading them every story revolves around a different moral value the most prominent of which are helping those in need having great love and respect for family and friends and patriotism these are called the monthly stories and appear at the end of every school month

nine short stories centred round a golf club and related by the oldest member who sits in a corner observing the highs and lows of younger members in matters of golf and love characters appear in more than one story

clinical cardiac physiology for residents and practitioners halftone and color illustrations and tables

an evaluation of the multi faceted role of the heart considers its representation of emotions and spirituality drawing on recent studies to reveal that the heart has its own intelligence and memory and operates independently from the brain

our hearts have evolved to be extremely efficient long lasting pumps that exquisitely match the needs of our bodies this book is about how the heart does this how can a heart pump the blood for up to one hundred years while the best formula one racing engine has a working life measured in hours why is the heart so efficient and how are worn out parts replaced while working how does it generate the force to act as a pump how is it controlled electrically and how can it repair itself this book addresses these questions from physiological and molecular perspectives in language that aims to be accessible to all interested in biology and with liberal illustrations the story of how the heart works is presented in the context of its origins how is the heart formed in the womb how it evolved as an oxygen pump through many configurations following the onset of oxygenic photosynthesis 2 5 billion years ago why its intimate co evolution with the circulation and blood was essential to enable its efficiency and longevity the book begins with a discussion of why the word heart is universally used as a metaphor for reason and emotion and traces its origins in modern and ancient languages the last chapter explains why most diseases of the heart can be attributed to a divergence between the lifestyle for which the heart is optimally evolved and those lived today in high income nations and increasingly in middle and lower income nations advice on how to preserve the heart is presented in light of this
