gifford knows his subject totally has vast and wide ranging sympathy for his subjects though without being uncritical and explores these themes with admirable intelligence this book is simply the best thing out there philip jenkins gifford s is an uncompromising hard nosed study no one can again look at the subject without at least a respectful nod in his direction lamin sanneh in ghana s new christianity paul gifford considers the explosion of christianity in sub saharan africa by focusing on one place greater accra ghana gifford examines every dimension of these new churches and mega churches including their discourse theological vision worship rituals music media involvement use of the bible finances and clientele ghana s new christianity sets religious devotion into ghana s political and economic situation and focuses on how fervent belief in success and wealth in the here and now can provide motivation to change in circumstances where it is so easy to despair no other book brings forth the complex

nature of africa s new christianity with such clarity or offers such a searching analysis of its power to tackle africa s predicament

in sub saharan africa over the last two decades there has been an explosion of christianity this book sets out to identify its particular character focusing on a particular place greater accra the capital of ghana paul gifford examines a wide range of accra s new churches giving priority to mega churches every dimension discourse theological vision worship rituals music media involvement use of the bible conventions finances clientele is analysed gifford argues that this christianity is not otherworldly its emphasis is on success achievement wealth here and now yet within this general orientation there is diversity at one end of the spectrum are churches that building on the traditional religious imagination see demonic forces everywhere blocking personal success in the churches the key factor is the special man of god who is understood to have the anointing to conquer these forces to reverse the curse that is holding the believer back at the other end is a strain of this new christianity that discounts spiritual forces and sees victory resulting from the believer s own education and skills and from transforming culture the book also joins the debate over the role of this christianity in modernizing economic and political structures it sets the scene by describing ghana s political and economic situation in the decades when these churches were proliferating and outlines the current debate on the reasons for africa s economic plight it is argued that although focusing on success and wealth can provide motivation in circumstances where it is so easy to despair the pervasive emphasis on miracles militates against any natural fostering of a new work ethic as for their political role some churches are easily co opted others challenge the government but for spiritual reasons that provide little incentive to grapple with issues of governance by contrast gifford finds one important church encouraging change of the entire political culture no other book has set forth the complex nature of africa s new christianity with such clarity or offered such a searching analysis of its power to tackle africa s predicament
