it has been clear for many years that the ways in which archaeology is practised have been a direct product of a particular set of social cultural and historical circumstances archaeology is always carried out in the present more recently however many have begun to consider how archaeological techniques might be used to reflect more directly on the contemporary world itself how we might undertake archaeologies of as well as in the present this handbook is the first comprehensive survey of an exciting and rapidly expanding sub field and provides an authoritative overview of the newly emerging focus on the archaeology of the present and recent past in addition to detailed archaeological case studies it includes essays by scholars working on the relationships of different disciplines to the archaeology of the contemporary world including anthropology psychology philosophy historical geography science and technology studies communications and media ethnoarchaeology forensic archaeology sociology film performance and contemporary art this volume seeks to explore the boundaries of an emerging sub discipline to develop a tool kit of concepts and methods which are applicable to this new field and to suggest important future trajectories for research it makes a significant intervention by drawing together scholars working on a broad range of themes approaches methods and case studies from diverse contexts in different parts of the world which have not previously been considered collectively

the fourth edition of this successful textbook has been revised and updated in light of recent events and includes a new chapter on the rise of cyberpower its comprehensive coverage of issues of war and peace such as terrorism intelligence and weapons of mass destruction makes it the major strategic studies textbook in the field

this book puts forward a new angle of understanding the society of states in the milieu of the contemporary world the absence of a regulatory mechanism i e anarchy has been the fundamental issue of international relations this book explains how the normative imperatives information and communication technology ict and nuclear deterrence generated ambiance have poised the states in a society where they are bound to follow certain normative imperatives that dilute the color and meaning of anarchy and obliges the states to act in a certain way it develops a theoretical proposition with regard to state power defined in terms of the capability of determining the outcomes the proposition first elaborates how international institutions foster normative imperatives then in line with this ontology it narrows down the focus solely on the power of the states in the contemporary world it explains how the power that can determine the outcome today is holistic in nature comprising both materialistic and normative factors in the next step it tailors the proposition in a way so as to employ it for a specific empirical work the book does not end just positing the theoretical proposition the proposition is testified through some case studies with regard to climate negotiations under the unfccc the empirical part not only serves to examine the plausibility of the theoretical proposition but it also presents the logic of the major actors and the politics with respect to some of the major issues of climate change i e mitigation funding policy and mechanism and adaptation the scholars in this arena climate activists and climate conscious people in general would find this book worth reading as it kindles a different angle to understand the issues in the context of the contemporary world and as it elaborates the logic framing process and mechanism of reaching outcomes through complex

negotiation process no other work has so far analyzed the issues covering the entire period of 21 apex unfccc negotiations that led to the paris agreement apart from university libraries this book thus has the prospect to be sold in the markets targeting the academicians climate change experts bureaucrats negotiators and the common readers

examining a number of case studies including palestinian afghan and iraqi refugees david j whittaker s book provides a balanced introduction to this very controversial subject fuelled by extensive coverage in the media the issue of asylum seekers and refugees is one of the most talked about subjects in contemporary politics whittaker cuts through the emotive language to give an objective introduction to the subject asylum seekers and refugees in the contemporary world discusses the international as well as national implications of the issue and the book looks in detail at the issue as it has affected britain and europe in particular as well as including material on the un and its response to the refugee problem including a final statement on the british government s 2005 proposals for dealing with refugees this volume is essential reading for all students of the history of the modern world and is ideal for newcomers to the subject

many globalizations is an attempt to account for the cultural impact of globalisation in the lives of ordinary citizens from ten countries the results of the study portray vast numbers of people intermixing participation in a global economy with indigenous values and lifestyles

how did the global community both as an idea and as a reality originate and develop over time this text examines this concept by looking at the emergence growth and activities of international organizations from the 19th century to the 21st akira iriye one of this country s most preeminent historians proposes a significant rereading of the history of the past fifty years suggesting that the central influence on the international scene in this period was not the cold war but rather a deepening web of international interactions the first systematic study of international organizations by a historian global community moves beyond the usual framework for studying international relations politics war diplomacy and other interstate affairs as it traces the crucial role played by international organizations in determining the shape of the world today

globalization is one of today s most powerful and pervasive ideas for some a welcome dream for others a nightmare the term is used in the popular press as a sort of shorthand for the notion that all parts of the world are becoming more alike it is al

in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead
