this is a book for the age of resistance for the occupiers of the squares for the generation of occupy wall street the premier radical political philosopher of our time offers a devastating critique of the way neoliberalism has hollowed out democracy

neoliberal rationality ubiquitous today in statecraft and the workplace in jurisprudence education and culture remakes everything and everyone in the image of homo oeconomicus what happens when this rationality transposes the constituent elements of democracy into an economic register in vivid detail wendy brown explains how democracy itself is imperiled the demos

disintegrates into bits of human capital concerns with justice cede to the mandates of growth rates credit ratings and investment climates liberty submits to the imperative of human capital appreciation equality dissolves into market competition and popular sovereignty grows incoherent liberal democratic practices may not survive these transformations radical democratic dreams may not either in an original and compelling theoretical argument brown explains how and why neoliberal reason undoes the political form and political imaginary it falsely promises to secure and reinvigorate through meticulous analyses of neoliberalized law political practices governance and education she charts the new common sense undoing the demos makes clear that far from being the lodestar of the twenty first century a future for democracy depends upon it becoming an object of struggle and rethinking

privatisation and commercialisation in public education asks how publicness is being redefined through the restructuring of nominally public school systems over the past few decades governments have engineered a wave of reforms in their public systems opening them to privatisation and commercialisation in public education systems competition choice and autonomy have become entrenched vectors of these reforms this edited collection carefully examines the difference between privatisation and commercialisation and traces the varying effects privatised and commercialised policy reforms have had in different educational contexts many countries have approached the thorny issues of school choice and school autonomy in different ways and this book investigates the impact of these agendas across the usa uk australia new zealand parts of europe sub saharan africa and india this book brings together contemporary international perspectives from high profile policy academics on both privatisation and commercialisation in public education systems under the provocation of how the public nature of schooling is changing this is essential reading for those interested in the idea that current education policy reforms are reshaping what might be considered core educational practices in public schooling

the book sheds light on the forms of neoliberalism's political rationality by highlighting the theoretical foundations upon which they are built it relies on foucault's account of neoliberal reason in terms of a governmental rationality encompassing all aspects of human life as well as critical theory's methodology the book discloses the tensions and antinomies between the concepts neoliberalism resorts to for its own moral and theoretical justification and the historical forms of its realization by combining the rigor of the normative principles of political philosophy with contemporary historical material the book shows how neoliberalism realizes itself by negating liberty in its own name undermining democracy and annulling rights via their transformation into the

morals of the new global market the core argument permeating the book is that crises are the very condition of neoliberalism's existence it states that paradoxically enough neoliberalism is facing the crises it itself produces by touching off new ones the book will appeal to students scholars and researchers of political science in general and political theory political philosophy and political history in particular interested in a better understanding of neoliberalism democracy and rights

this open access volume analyses the development of democracy at different levels of governance from local to global the basque search for an institutional and democratic model that adapts to its social needs and solves its problems offers an interesting perspective for analyzing the way in which democracy is seeking new forms of materialization from the local to the global the volume is divided into four parts the chapters in part i analyze the tensions between the neoliberal vision of democracy and the voices contesting it with projections at different levels of government the chapters in part ii focus on the emerging framework and scales of western democracy the chapters in part iii present new forms of citizen participation paying special though not exclusive attention to new practical strategies for basque society the volume concludes with a block of chapters on the relevance of reviewing the methodological and epistemological frameworks from which knowledge about democracy and mechanisms of citizen participation is generated part iv by delving deeper into the idea and practice of democratic governance this volume will be of interest to researchers and students from all disciplines of politics international relations sociology and law

while artificial intelligence ai robots bio technologies and digital media are transforming work culture and social life there is little understanding of or agreement about the scope and significance of this change this new interpretation of the great transformation uses history and evolutionary theory to highlight the momentous shift in human consciousness taking place only by learning from recent crises and rejecting technological determinism will governments and communities redesign social arrangements that ensure we all benefit from the new and emerging technologies the book documents the transformations under way in financial markets entertainment and medicine affecting all aspects of work and social life it draws on historical sociology and co evolutionary theory arguing that the radical evolution of human consciousness and social life now under way is comparable with if not greater than the agrarian revolution 10000 bce the explosion of science philosophy and religion in the axial age 600 bce and the recent industrial revolution turning to recent major socio economic crisis and asking what can be learnt from them the answer is we cannot afford this time around to repeat the failures of elites and theoretical systems such as economics to attend appropriately to radical change we need to think beyond the constraints of determinist and reductionist explanations and embrace

the idea of deep freedom this book will appeal to educators social scientists policy makers business leaders and students it concludes with social design principles that can inform deliberative processes and new social arrangements that ensure everyone benefits from the affordances of the new and emerging technologies
