this book examines the complex network of influences that collide in the culture of digital fighting games players from all over the world engage in competitive combat with one another forming communities in both real and virtual spaces attending tournaments and battling online via internet connected home game consoles but what is the logic behind their shared playstyle and culture what are the threads that tie them together and how does this inform our understanding of competitive gaming community and identity informed by observations made at one of the biggest fighting game events in the world the evolution series tournament or evo and interviews with fighting game players themselves this book covers everything from the influence of arcade spaces to the place of gender and ethnicity in the community to the clash of philosophies over how these games should be played in the first place in the process it establishes the role of technology gameplay and community in how these players define both themselves and the games that they play

iran appears to be pursuing an assertive foreign policy that confronts the u s on a variety of points the middle east peace process the stability of moderate muslim states terrorism security in the persian gulf and nuclear proliferation however its intentions are by no means clear this document discusses these issues contents domestic politics and strategic intentions iran s

foreign policy and internal crisis russia and iran iran s military intentions and capabilities iran s strategic aims and constraints  
assessment of iran s military buildup

one of the most stimulating informative provocative and witty books on the motor car ever written

this book presents an integrative dualist model of mental disorder for psychiatry as a counter to the so called biomedical approach that dominates the field today starting with the humanist concept that mental disorder is real it uses a computational approach to build a genuinely bio psycho social model this shows that mental disorder is primarily psychological in nature not biological the historical background extends as far as descartes and proceeds via some of the revolutionary thinkers who have shaped modern society in particular it builds on the work of george boole alan turing and claude shannon to construct a radically new concept of the mind as a real informational space which for better off for worse can malfunction it extends this idea to build models of personality of personality disorder and then of mental disorder finally the concepts are tested against a variety of themes from other fields to show its generality based in the philosophy of science and of mind this work represents a radical departure from anything in the history of psychiatry its purpose is to provide a formal articulated model of mental disorder to fill the theoretical void at the core of modern psychiatry this book is written for medical students and recent graduates for psychiatrists psychologists social workers and broadly anybody with an interest in human affairs such as philosophy politics and other related fields

this book explores and analyzes the rapid pace of technological evolution in diplomatic information military and economic sectors which has contributed to a dynamic international policy environment global political stability is greatly influenced by innovations originating from numerous sources including university labs the technology sector and military research collectively these innovations guide the movement of people ideas and technology that in turn affect the international balance of power the

objective of this volume is to develop new insights into how the proliferation of innovative ideas low cost weapons and dual use technologies impact the changing global security landscape innovative and dual use technologies can be used for beneficial purposes or defensive purposes alternatively they may be appropriated or employed for nefarious purposes by hostile military powers and non state actors alike such actions can threaten global security and stability as the complexity of technological innovations continues to increase existing control mechanisms such as international regulations and security arrangements may be insufficient to stem the tide of proliferation over time as such this works seeks to assess and present policy solutions to curtail the threat to global stability posed by the proliferation of weapons and dual use technology
