being able to collect valid data is crucial for empirical science disciplines such as linguistics developmental psycholinguistics clinical psycholinguistics and speech and hearing sciences in recent years there has been an increasing use of digital devices for remote language assessments such as online elicitation of language samples apps for eliciting expressive and productive lexical abilities and online questionnaires with the ongoing covid 19 pandemic still affecting many lives globally there have been numerous disruptions of face to face in person language assessments leading many researchers to conduct their language assessments online despite the necessity of remote language assessments and the convenience they may bring to both assessors and assesseees the potential merits limits and problems of remote testing have not yet been systematically explored and understood this timely research topic seeks contributions that mobilize new evidence and or insightful and nuanced discussions to address questions such as can we control online testing so that it is as good as face to face in person testing and if so how do we have evaluative evidence of such practices and if so how robust is the evidence what adaptations and concerns can and cannot be accommodated at the present time what opportunities are offered by recent technological advances are there certain conditions in which online testing works better or worse last but not least how do differences between offline in person language assessments and online remote assessments affect the results of testing the current topic has two main foci the first deals with the assessment of conversational discourse in general and narrative discourse in particular in both children and young adults communicative competence at the discourse level has been considered an essential and ecologically valid component in language assessments of children and adults for three key reasons 1 this competence is crucial for an individual s everyday functioning and academic and social life 2 it provides information about an individual s socio cognitive and linguistic abilities and 3 it is a versatile test of language skills at the levels of content form use and their integration the second focus is on comparing the results elicited via in person assessments and remote online assessments this research topic welcomes empirical articles discussing new evidence perspective and opinion papers on issues at the conceptual methodological interface and methods articles presenting approaches that can offer opportunities for remote testing of developmental discourse supported by recent technological advances potential themes may include but are not limited to comparisons of remote versus in person testing modes using a within participants research design learner variables such as age gender language status monolingual multilingual and clinical status typically developing children and adults children and adults with clinical conditions such as developmental language disorder autism spectrum disorder which may affect the efficacy of remote testing linguistic variables such as the use of referential and relational devices and mental state language which may be subject to more variations when being assessed remotely new methods that offer opportunities for the remote testing of developmental and adult discourse

supported by recent technological advances articles addressing the same research question within developmental narrative discourse but using different i e either online or offline research methods

touch screen tablets have greatly expanded the technology accessible to preschoolers toddlers and even infants given that they do not require the fine motor skills required for using traditional computers many parents and educators wish to make evidence based decisions regarding young children s technology use yet technological advancements continue to occur faster than researchers can keep up with accordingly despite touch screen tablets entering society more than 5 years ago we are in the infancy of research concerning interactive media and children the topic has gained traction in the past couple of years for example theoretical papers have discussed how interactive media activities differ from physical toys and passive media christakis 2014 and how educational apps development should utilise the four pillars of learning hirsh pasek et al 2015 yet there has been little experimental research published on young children and touch screen use

literacy is one of the most highly valued cultural resources of contemporary american society yet far too many children in the nation s cities leave school without becoming sufficiently literate this book reports the results of a five year longitudinal study in the city of baltimore maryland tracing literacy development from pre kindergarten through third grade for a sample of children from low and middle income families of european and african heritage the authors examined the intimate culture of each child s home defined by a confluence of parental beliefs recurrent activities and interactive processes in relation to children s literacy competencies also examined were teacher beliefs and practices and connections between home and school with its broad based consideration of the contexts of early literacy development the book makes an important contribution to understanding how best to facilitate attainment of literacy for children from diverse backgrounds

using chinese classics for intercultural communicative competence presents new strategies and tools for integrating mandarin language teaching with fostering intercultural competencies through contemporary global lenses on chinese classic texts chinese classic texts are canonical works in chinese culture published before 1911 they offer a window into deeply held cultural values which learners of the chinese language would benefit from studying to facilitate meaningful intercultural dialogues with chapters covering classic chinese texts such as journey to the west dream of the red chamber and the romance of the three kingdoms this book will demonstrate the value importance and feasibility of teaching chinese classic works for icc development in the chinese world language classroom and equip teachers with carefully planned classroom tested lesson models that demonstrate the innovative integrative models advocated in this book this book will be valuable for pre and in service mandarin chinese teachers across various institutional settings at different levels looking for ready materials and professional development resources the book can also be used as core material for teacher training programs

motivated by the need to bring together researchers involved in the acquisition learning and teaching of the croatian language and foreign languages to learners at lower elementary level the recurring scientific conferences children and languages today were established in 2001 at the time the croatian academic community was short of a conference that was dedicated entirely to critical thinking and the exchange of research findings outcomes and experience in these particular study areas as it turns out children and languages today has served as an incentive for other conferences and meetings in croatia that continue to promote research in the fields of first and second language acquisition of young learners children and languages today first and second language literacy development is the outcome of the conference held in 2017 at the faculty of education university of osijek it is a collection of papers by experts on a wide range of topics that include developing literacy in teaching first and second languages and encompassing different fields of science and expertise such as children s literature bilingualism metaphor usage translation vocabulary narrative and orthography this book hopes to shed light on and open up an array of questions in the area of literacy development
