of the previous century however they had been the basic turning points in the history of german georgian relations as well in the first case the basic motivation for starting the relations between georgia and germany was the issue of georgian independence in the second case the relations between germany and georgia has started after but not immediately after the declaration of independence as well however there is a significant difference between these two periods of georgian german relations first of all the symmetry of developing relations goes differently in the first case the relations had started several years before the declaration of independence which was the direct result of these relations and finished shortly several months after declaring independence in the second case the relations have started some time after the restoration of independence the relations which still go on during the last couple of decades another difference which has the basic importance for our research is the fundamentally different attitude from the german side towards the first and second cases of declaring independence of georgia the research tries to clarify the reasons for such difference and explain it with the proper theoretical concept
