a hard hitting examination of community policing and its negative impact on the urban poor

in modern economies time series play a crucial role at all levels of activity they are used by decision makers to plan
for a better future by governments to promote prosperity by central banks to control inflation by unions to bargain
for higher wages by hospital school boards manufacturers builders transportation companies and by consumers in
general a common misconception is that time series data originate from the direct and straightforward
compilations of survey data censuses and administrative records on the contrary before publication time series are
subject to statistical adjustments intended to facilitate analysis increase efficiency reduce bias replace missing
values correct errors and satisfy cross sectional additivity constraints some of the most common adjustments are
benchmarking interpolation temporal distribution calendarization and reconciliation this book discusses the
statistical methods most often applied for such adjustments ranging from ad hoc procedures to regression based
models the latter are emphasized because of their clarity ease of application and superior results each topic is
illustrated with many real case examples in order to facilitate understanding of their properties and limitations of the
methods discussed a real data example the canada total retail trade series is followed throughout the book this
book brings together the scattered literature on these topics and presents them using a consistent notation and a

unifying view the book will promote better procedures by large producers of time series e g statistical agencies and central banks furthermore knowing what adjustments are made to the data and what technique is used and how they affect the trend the business cycles and seasonality of the series will enable users to perform better modeling prediction analysis and planning this book will prove useful to graduate students and final year undergraduate students of time series and econometrics as well as researchers and practitioners in government institutions and business from the reviews it is an excellent reference book for people working in this area b abraham for short book reviews of the isi december 2006
